INTRODUCTION

Before judging or condemning this book, first read it from beginning to end, then you decide if you remain the same, or if you change.

The first and second chapters of this book focus on the gods of the indigenous Guaraní ethnic group; The third chapter is a social critique that demonstrates how we live in a sick society where many believe the lies that criminals write and say.

It is urgent to change this sick society, destroy this perverse society to create a new, better and different society.

The Guaraní gods mentioned in this book are: Ñamandú, Tupa, Jaci, Guaraci, Ceuci and Iara.

I CHAPTER. THE IDEOLOGY OF HISPANITY, THE BIBLE, SOCIETY AND THE GUARANÍ GODS

According to the Hispanists, there was no indigenous slavery during colonization by the Spanish and the viceroyalties. Although it is true that in 1526, King Charles I of Spain prohibited the slavery of indigenous people.

In 1528, two years later, Charles I made a new order that promoted what he called the just war against indigenous people, which meant war against indigenous people who did not accept to submit to the will of the royalty of Europe and did not convert to the Catholic religion.

In this new order, Charles I allows the slavery of indigenous people who do not convert to Christianity and do not submit to the authority of the king.

The so-called just war was a way in which many indigenous people were enslaved. King Philip II in 1569 also allowed slavery against indigenous people considered rebels (who did not convert to Christianity and did not submit to the king) such as the Caribs.

The encomiendas and mitas were repartimientos of indigenous people, where they were evangelized and forced to work, often without rest and where they suffered whippings, as they were obligatory jobs where they suffered abuse and humiliation, they were slavery. It is true that they were not considered slavery in those times, but they clearly were: they were forced labor, without rest and without rights.

Why do these monsters who accuse all the thousands of indigenous ethnic groups and all the indigenous people of each ethnic group of being cannibals, don't they talk about how their evil god says in his word (the Bible) that he will make parents become cannibals and devour their own children to punish them?

Leviticus chapter 26, verses 26, 27 and 28: If you still do not listen to me, but proceed against me in opposition, I will proceed against you in anger, and will punish you seven times for your sins. And you will eat the flesh of your sons, and you will eat the flesh of your daughters.

Deuteronomy Chapter 28, verse 53: And you shall eat the fruit of your womb, the flesh of your sons and your daughters, which the Lord your God gave you, in the place and in the trouble with which your enemy will distress you.

Jeremiah chapter 19, verse 9: And I will make them eat the flesh of their sons and the flesh of their daughters, and each one will eat the flesh of his friend, in the siege and in the trouble with which their enemies and those who seek their lives will press them.

Another lie that the Hispanists tell is that as long as the indigenous people did not make sacrifices, they were allowed to worship their gods as long as they did not make sacrifices to them, and that according to them there was no extermination because they worshiped other gods. According to them, only the part of the sacrifices was prohibited and not the worship of the gods themselves.

In the so-called just wars by the colonizers, the worship of gods other than the Judeo-Christian god was considered a major crime, even if they did not make sacrifices to them. In the book titled Compilation of the Laws of the Indies, by Carlos II, there is a section known as The Requerimiento.

The Requirement, which is a document from 1512, is a document that has the purpose of informing the indigenous people to submit to the will of the king and convert to the Catholic religion or else war would be made on them, they would be captured or enslaved, including women and children, regardless of whether they made sacrifices or did not make sacrifices.

Why do these monsters who accuse all the thousands of indigenous ethnic groups and all the indigenous people of each ethnic group of infanticide, who claim to be pro-life for being against abortion, defending zygotes and embryos that do not feel, While they support the murder of indigenous children who do feel, and who say that in cases of rape abortion the child (referring to zygotes, embryos and fetuses alike) is not to blame, they do not talk about how their nefarious god ordered the killing of children and kill pregnant women?

Isaiah chapter 13, verse 18: With bows they will sweep away the young men, they will not have compassion on the fruit of the womb, nor will their eyes have mercy on the children.

Hosea chapter 13, verse 16: Samaria will be desolate, because she rebelled against her God; They will fall by the sword; Their children will be dashed to pieces, and their pregnant women will be cut open.

Psalms chapter 137, verse 9: Blessed is he who takes and dashes his little ones against the rock.

According to Hispanists, the Spanish colonizers treated the indigenous people better than the Portuguese, English, French and other European colonizers. This is false. No one treated them better or worse. They all felt hatred for the indigenous people equally, they all considered them inferior, they all committed the same atrocities against the indigenous people.

Regarding mestizaje, they always presented it as a great achievement and that according to them was proof that they considered the indigenous people as equals. Not really.

Mestizaje has a geopolitical objective of facilitating evangelization, integrating indigenous people into sick society until they renounce their way of being, renounce their way of thinking and renounce their vision of the world, and to whiten the new generations.

Since these people consider that all indigenous people are ugly and these people are self-centered, they say that indigenous women preferred Europeans for aesthetics and that miscegenation was voluntary. This is all false.

European immigrants were considered superior to the Creoles, who are the children of Europeans born on this continent, the Creoles were considered superior to the mestizos, and the mestizos were considered superior to the indigenous people. Indigenous people were always considered the lowest and the most inferior to all others, being indigenous was always considered the worst.

Laws in favor of indigenous people are something recent throughout the continent and until about the middle of the last century there was an effort to fight to implement these laws, and these laws continue to remain only on paper because they are not really applied, before that, they did not exist laws that favored the indigenous people and they were considered lacking rights so they were left in the hands of Creoles, mestizos and other ethnic groups to do whatever they wanted to them.

The reason why many indigenous people preferred miscegenation was so that their children would have rights and better treatment, and unfortunately this form of replacement of indigenous people continues to occur today. Colonialism never ended, colonialism continued, only the ways in which it was carried out changed.

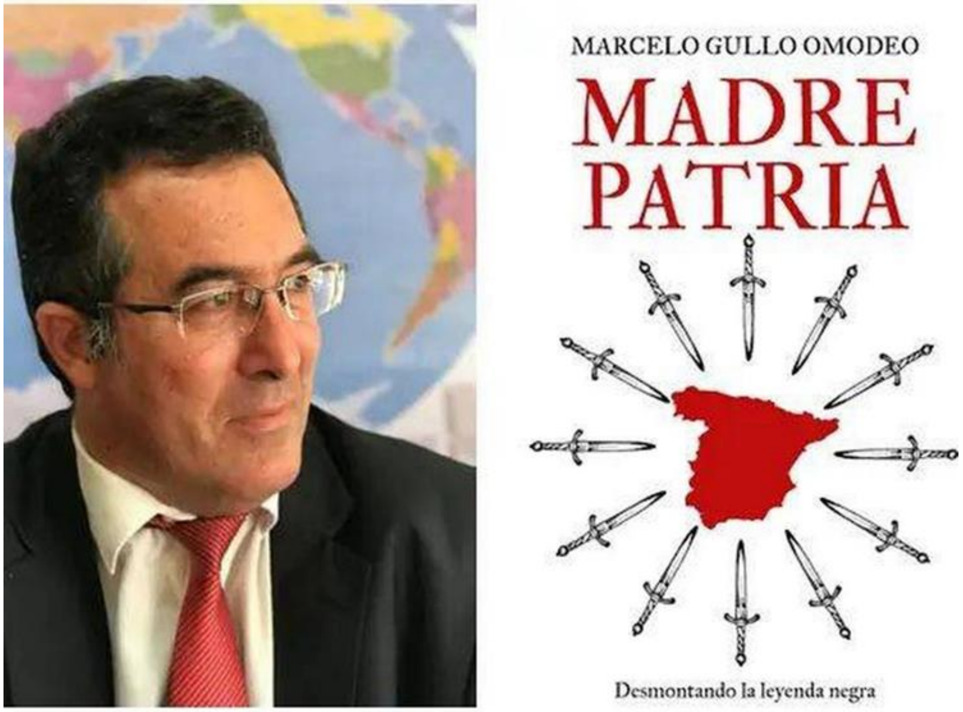
Why don't these monsters who accuse all indigenous ethnic groups and all indigenous people of each ethnic group of raping women in groups and of being sexist talk about how their nefarious god in the Bible commands them to rape women and promotes sexism?

Isaiah 13, verses 16 and 17: Their children will be dashed before them; Their houses will be looted, and their women raped. Behold, I awaken the Medes against them.

1 Timothy chapter 2, verses 11, 12 and 13: Let the woman learn quietly, with all obedience. I do not allow the woman to teach or to exercise authority over the man, but rather to remain silent. Because Adam was created first, then Eve.

1 Corinthians chapter 14, verses 34 and 35: Let your wives be silent in the congregations; because it is not permitted for them to speak, but to be subject, as the law also says. And if you want to learn something, ask your husbands at home; because it is unseemly for a woman to speak in the congregation.

Marcelo Gullo is a defender of colonization, writer of a book called: Madre Patria. In that book he states that all the Aztecs made human sacrifices and that they made sacrifices of 150,000 people per year.



Photographs recovered from the Internet

Marcelo Gullo Omodeo is a graduate in political science, not in history, not in archaeology, not in anthropology and not in ethnology. As for Marcello Gullo's sources, there are two: William Prescott, who is a Hispanic historian who was born in 1796 and died in 1859, making it an outdated source.

Marcelo Gullo's other source is the Tzompantli mural that has only recorded 1000 skulls and a mural with figures of skulls is not evidence of human sacrifice. It's as if I made a drawing or a sculpture of a human skull, and in 200 or 300 years someone finds it and says it's proof that I made human sacrifices.

Photograph recovered from the Internet

But, even if the Aztecs performed human sacrifices, 150,000 human sacrifices is an exaggerated number and it is what I have commented many times that these who hate the indigenous people give exaggerated figures to promote hatred of the indigenous people both of the past and the present because All these people support politicians who cause massacres of indigenous people in the present.

If the Aztecs had performed 150,000 human sacrifices each year, in the time that lasted the Aztecs would have exterminated themselves. It is absurd and an exaggeration like all the figures used to justify colonization.

On the other hand, those who hate indigenous people only mention the human sacrifices made by some indigenous ethnic groups. They never mention human sacrifices practiced by white ethnic groups such as Celts and Vikings. The reality is that all human races have performed human sacrifices in the past.

And these criminals can say that Christians did not make human sacrifices, but they did. I know that most are ignorant, but I am going to explain what a sacrifice is: any slaughter carried out in the name of gods or a god is a sacrifice.

Christians did make sacrifices: the tortured and murdered people being burned alive in the inquisition were sacrifices because these people were murdered in the name of the Christian god.

And I don't care if the victims were few or many, since the criminals also justify this by saying that the victims were few, which is irrelevant, the important thing is that there were victims, and the number does not matter.

Christians did make human sacrifices: in wars that they called holy, like the crusades, they murdered other people in the name of their Christian god.

And Christians make human sacrifices in the present as when they murder indigenous people, for example, the case of the Guaraní-Kaiowa and many other indigenous ethnic groups that continue to be murdered by Christians in the present.

All the wars that Jews, Christians and Islamic people wage today are human sacrifices because they are waged in the name of their god. All deaths caused in war are human sacrifices, and Christians like the Greeks, Romans, Persians, Celts and Vikings also continued to make animal sacrifices in the form of bullfighting, cockfighting and hunting for pleasure.

When we talk about nature, nature encompasses everything, both the nature of the universe, the nature of the earth and human nature.

Some gods personified forces of the nature of the universe, other gods the forces of the nature of the earth and other gods the forces of human nature, although many times the gods were the personification of the three forms of nature mixed: universe, earth and Human nature.

It is true that the majority of humans today do not personify human instincts, emotions and passions with gods and goddesses, but, they continue to make sacrifices to these aspects of human nature when they kill out of instincts, when they kill out of emotions, and when they kill out of passions.

I am in favor of the death penalty for those who harm innocent people, and the death penalty is also a form of sacrifice.

Why do these monsters who accuse all indigenous ethnic groups and all the indigenous people of each ethnic group of making human sacrifices, do they not talk about the part of the Bible where their god accepted that Jephthah sacrificed his own daughter and did nothing to prevent it?

Judges chapter 11, verses 30 and 31: -And Jephthah made this promise to the Lord: If you give me victory over the Ammonites, I will offer you as a burnt offering to the first one who leaves my house to receive me when I return from the battle.

Judges chapter 11, verses 32 and 33: - Jephthah invaded the territory of the Ammonites, and attacked them, and the Lord gave him victory. Jephthah killed many enemies, and conquered twenty cities between Aroer, Minith, and Abel-cheramim. In this way the Israelites dominated the Ammonites.

Judges chapter 11, verses 34 and 35: - When Jephthah returned to his house in Mispah, his only daughter came out to greet him dancing and playing tambourines. Apart from her, he had no other children, so, when he saw her, he tore his clothes in desperation and said to her: "Oh, my daughter, what great pain you cause me!" And you yourself are the cause of my misfortune, because I have made a promise to the Lord, and now I have to fulfill it!

Judges chapter 11, verses 38 and 39: - Jephthah granted her two months, and during that time she walked through the mountains with her friends, crying because she was going to die without having married. After that time he returned to his father, and he fulfilled the promise he had made to the Lord. Jephthah's daughter died without having had sexual relations with any man.

Also, the majority is a coward, because if I mention these atrocities that the Bible contains, many answer me that this is not written in the Bible, so I challenge them to look for these chapters and verses in the Bible for themselves, and the very cowards don't do it.

Another story that they always have is that the parts of the Bible that suit them such as the story of Adam and Eve, Noah's boat, the story of the angels, the story of the demons, the story of the devil, and the story of the life and miracles of Jesus Christ, they say they are just as they are written.

But the parts of the Bible that do not suit them like the ones I show, they say are metaphors or symbolic. It is always like this that what suits them in the Bible is as it is written, and what does not suit them are metaphors or symbolic.

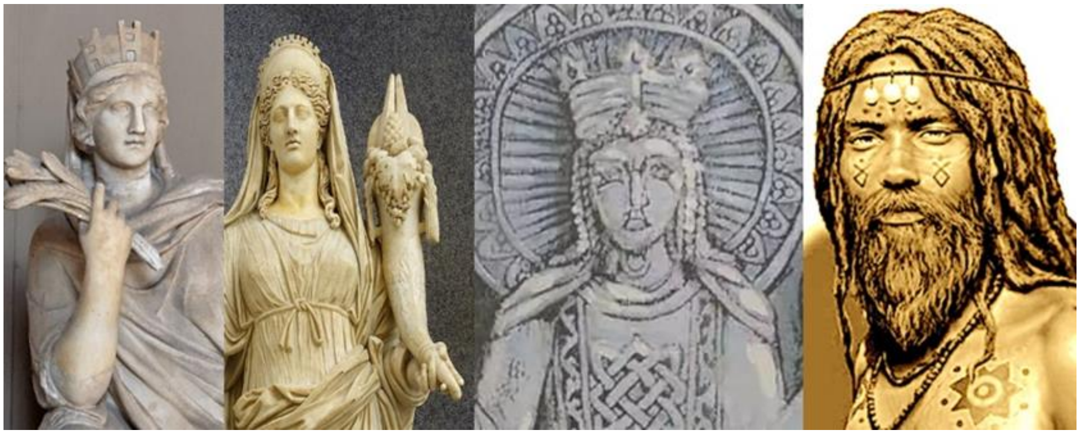
Charles Darwin stated that the indigenous people of Tierra del Fuego, located in Chile and Argentina, practiced cannibalism and upon hearing an indigenous person speaking in their language, he stated that the cries of a domestic animal were much more understandable.

The missionary Thomas Bridges demonstrated that the language of the indigenous people of Tierra del Fuego contained more than 32,000 words and a more complex syntax than ancient Greek, that they did not practice cannibalism, and that Charles Darwin's ideas that these indigenous people practiced cannibalism It was due to a linguistic misunderstanding.

Hispanists say that we should not judge with the vision of the present the atrocities committed against the indigenous people in the past by the colonizers, but they do judge the Aztecs, Mayans, Incas and other indigenous ethnic groups with the vision of the present.

On the other hand, there were some people at the beginning of colonization like Bartolomé de las Casas and others who, although they were part of the colonization, did judge the colonizers for the atrocities they committed against indigenous people with the vision of the present. Which shows what clowns those who try to justify colonization are.

Ancient Europeans also had their gods and goddesses related to wealth in terms of money: the Greek goddess Tique, the Roman goddess Fortuna, the Slavic god Dazbog and the god Magec of the ancient Canaries in Spain.



Photographs and images recovered from the Internet

All the murders, exterminations and massacres that are committed today in the name of money are human sacrifices.

Someone explain me:

When did Europeans stop making human sacrifices? When did Christians stop making human sacrifices? When did non-indigenous people stop making human sacrifices?

They continue to make human sacrifices in the present, in the name of money and in the name of Christianity, so do not be hypocrites by promoting hatred of the indigenous people of the present for what other indigenous people did in the past, when they have never stopped making human sacrifices in the present.

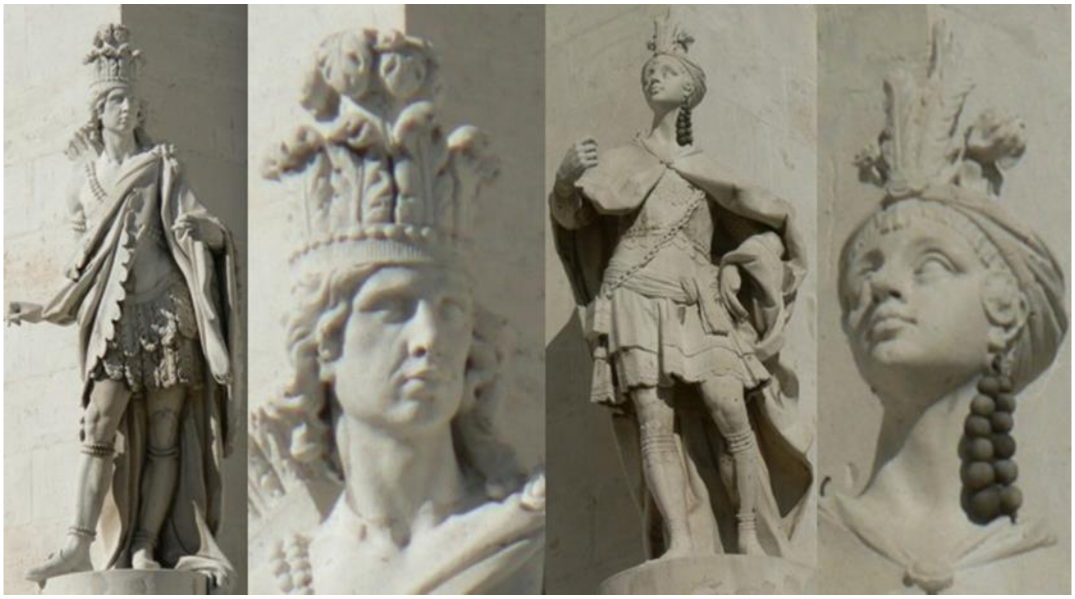
As has already been explained many times: indigenousness is not reduced only to physical features. Indigenous includes the way of being and the vision of the world.

If a European immigrant, a Creole, a mestizo, a black, a mulatto and a zambo have the humble and simple way of being of the indigenous people, even though they use technology and money, they are not consumerists and they are not selfish, in their vision of the world they consider themselves part of the rest of nature and not separated from the rest of nature, they are accepted as members of an indigenous ethnic group and they feel indigenous, then if they are indigenous.

Also, it happens that people who were born indigenous due to their genetics, stop being indigenous, because they hate and despise indigenous people, they are conceited or narcissistic, they are consumerist and selfish, they do not feel part of other nature and they feel separated from the rest of nature, and do not feel indigenous. Even if they were born indigenous, they are not indigenous.

However, an indigenous person who, in addition to his way of being and worldview, is also indigenous because of his genetics, should always be represented with his indigenous traits and not with the traits of other races.

According to Hispanists, these statues represent Moctezuma and Atahualpa in Spain:



Photographs recovered from the Internet

According to them, they are proof that the Spanish colonizers treated the indigenous people better than the Portuguese, English and French colonizers. And according to them, they are proof that the majority of Spaniards currently consider indigenous people as equals.

Although it is true that not all indigenous ethnic groups have the same physical features and that there are several indigenous races on this continent, the majority of indigenous ethnic groups and the majority of indigenous people have these features: slanted eyes, a nose that is wider on the sides, the shape Longer lips and straight hair.

That these statues, in drawings and paintings: the Europeans represent the indigenous people with European features and with the same clothing as the Visigoths, is proof of the hatred and contempt that exists for indigenous features. I wonder why statues, paintings and drawings never represent indigenous people with these features:

Even if they represent indigenous people with brown skin, they often eliminate indigenous features such as the shape of the hair, the shape of the nose, the slanted eyes, and the shape of the lips. And my only answer is that this is because they also hate indigenous people for their physical features, so eliminating their physical features in statues, drawings and paintings is a way of saying what they want to do in real life.

There are exceptions in the Europeans who, if they are good because they care about the indigenous people like those who work at Survival International, but they are like 1%, just like those of us who are not indigenous on this continent who if we care about the indigenous people we are only like the 1 %.

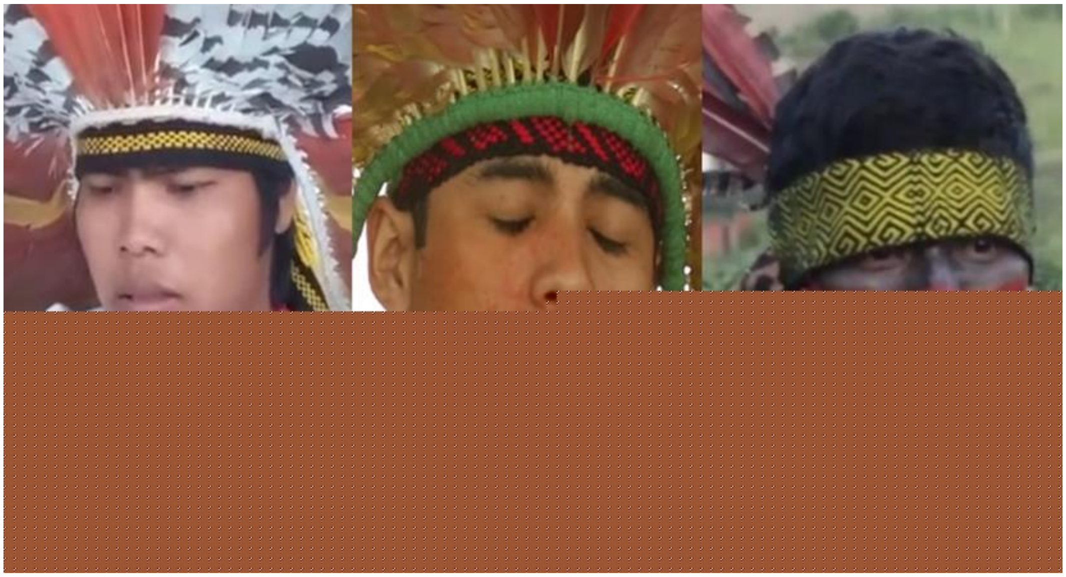
Many Spaniards, and I suppose it is the same with many Portuguese, English, French and other Europeans, believe that Creoles and mestizos are indigenous only for being born on this continent, which proves their ignorance and stupidity.

I know because I have argued with many of them, for me to be against something I first have to know it well, watch videos and read writings from everyone I am against. I am not like these fanatical and cowardly criminals who only read what is convenient for them and only watch videos of what is convenient for them. To have arguments against, first I watched the videos and read their writings.

You have to ask yourself:

Why do these Europeans who consider the indigenous people as inferior, backward, uncivilized and from the stone age represent the indigenous people with European physical features?

And never with indigenous physical features:



Screenshots recovered from the Internet

For me, the fact that they even represent indigenous people in sculptures, paintings and drawings with European features is proof of the narcissism and egocentrism they represent in many Europeans. And also an attempt to make everything indigenous invisible or nullify the indigenous even in terms of physical features.

These monsters try to nullify the indigenous people in everything.

How I defend the indigenous people, many of these Hispanicists say that I victimize myself, when I am white and I have never said that I am a victim, I have affirmed that the victims are the indigenous people, not me.

Other times they say that I victimize the indigenous people, they are so stupid that they do not understand the difference between real victim and victimization (false victim pretending to be a real victim).

And they are the ones who victimize Europe and Europeans, saying that they must be defended as if they were victims of extermination, genocide, replacement and invasion of territories. When Europe and Europeans were never victims of that.

Other times they say that the Romans conquered the Celts, something ridiculous because that was not a genocide and it was not an extermination,

And, furthermore, the vision brought by Europeans that civilization and progress is to pollute and destroy the environment to obtain economic benefits causes the death of wild animals.

And he is a believer in conspiracy theories like all neo-Nazis, and he believes he is anti-system for believing in these stupid theories, when the system is society and society is the majority, and these conspiracy theories defend and support the majorities and the They pretend to be innocent victims of the elites when they are not and the only victims of the elites are the indigenous people.

In the sexuality and affectivity classes, the aim is not for people to become homosexual or for them to like being homosexual, what is sought is for homosexuals to be respected and not to be discriminated against for that reason, not to be treated badly and do not attack them for that, but these stupid people who believe in conspiracy theories invented by conservative Christians do not understand the difference between one thing and the other.

Also, look what another stupid believer in stupid conspiracy theories writes in the comments:

It seems that these stupid men and women who claim to be vegans or animalists have never read these parts of the Bible:

Genesis chapter 9, verses 2 and 3: The fear and fear of you will be on every animal of the earth, and on every bird of the air, on everything that moves on the earth, and on all the fish of the sea; into your hand they are delivered. Everything that moves and lives will be your maintenance.

Genesis chapter 4, verses 3, 4 and 5: Time passed, and one day Cain presented to God an offering of the fruits he grew. For his part, Abel chose the first fattest offspring of his sheep, and took them to God as an offering. God received Abel's offering with great pleasure, but he did not receive Cain's offering with the same pleasure. This bothered Cain a lot, and you could see on his face how angry he was.

Genesis chapter 3, verse 21: And God made the man and his wife coats of skin, and clothed them.

Genesis chapter 8, verses 20 and 21: Then Noah built an altar to the Lord, and on that altar he offered pure animals and pure birds as a burnt offering. When the Lord perceived the pleasant aroma.

Genesis chapter 10, verse 9: He was a mighty hunter before the Lord; therefore it is said: Like Nimrod, a mighty hunter before the Lord.

Exodus chapter 16, verses 12 and 13: I have heard the murmurings of the children of Israel; Speak to them, saying: In the evening you will eat meat, and in the morning you will be satisfied with bread, and you will know that I am the Lord your God. And when evening came, quails came up and covered the camp; and in the morning dew fell around the camp.

Exodus chapter 29, verses 16, 17 and 18: And you shall kill the ram, and sprinkle its blood on the altar all around. You shall cut the ram into pieces, and wash its intestines and its legs, and place them on its pieces and on its head.

And you will burn the whole ram on the altar; It is a burnt offering of a sweet aroma to the Lord, it is a burnt offering to the Lord.

Leviticus chapter 22, verses 26 and 27: And the Lord spoke to Moses, saying: When a calf, or a lamb, or a kid, is born, it will remain with its mother for seven days, and from the eighth day forward it will be acceptable as a sacrifice of fire offering.

Jeremiah chapter 7, verse 21: Thus says the Lord of hosts, the God of Israel: Add your burnt offerings to your sacrifices and eat the flesh.

Matthew chapter 14, verse 19 and 20: Then he commanded the people to lie down on the grass; And taking the five loaves and the two fish, and looking up to heaven, he blessed, and broke, and gave the loaves to the disciples, and the disciples to the crowd. And they all ate, and were satisfied; and they gathered up what was left of the pieces, twelve baskets full.

Luke chapter 22, verses 7 and 8: The day of unleavened bread arrived, in which it was necessary to sacrifice the Passover lamb. And Jesus sent Peter and John, saying, Go, prepare the Passover for us to eat.

And the belief in this nefarious god was what the white Europeans brought and imposed on this continent by force with torture, genocide and massacres.

Also, it seems that these stupid people who claim to be vegans and animalists never received religion classes in school, college and catechism where they affirm that animals have no rights because they have no soul and no dignity, and that only being human deserves respect because only the human being is created in the image and likeness of that god, only the human being has a soul and dignity according to Christianity.

And it also seems that they have never heard comments from Christians (Catholics, Evangelicals and other denominations) where they say that God created animals so that humans could use them and eat them.

It is because of this mob that abounds so much in veganism and animalism at the present, that veganism and animalism can no longer be considered anti-system because they are totally contaminated by this type of people, and there are not a few within the veganism and animalism, in reality it is many of these people who are within veganism and animalism at the present.

And it also seems that these imbeciles have never seen these photos of religious leaders of Christian religions who participate in and support bullfighting and hunting for pleasure:

This is what I was saying about the fact that on this continent there are no really Left-wing governments, because these false Left-wing governments are just as colonialist as those that are openly Right-wing or Neocolonial.

Also, analyze the following: those governments that pretend to be from the Left like Nicolás Maduro, Fidel Castro or Daniel Ortega's wife give more importance to beliefs of African origin such as Santería and others, but totally disregard indigenous beliefs.

A way of saying that any other belief, even those of African origin such as voodoo or Santeria, according to them, are better than indigenous ones, although they make the joke of sometimes saying that they are indigenous when they are not and of talking about colonialism when it suits them.

Obama, like George Bush and Donald Trump, is also related to Judaism and Zionism:

Teletica channel 7, in Costa Rica, treats indigenous people who defend their territories as criminals

Some time ago on Teletica channel 7, they showed a program or series from the United States in favor of Christianity called The Touch of an Angel, and one of the angels was a black woman:

I have always seen that, in movies, series and programs in the United States, black people always appear in Christian churches, it is like in Brazil, look for videos of Christian churches and you will see that there are the same number of whites and blacks in those churches christian.

So they represent black people as cannibals. I only remember an episode of Bugs Bunny where they presented some black people from an indigenous ethnic group in Africa as cannibals. But, in most series, movies and cartoons in the United States, black people are presented as equals and not as inferiors.

While in the majority of films, series and cartoons in the United States, natives (indigenous people) are represented as inferior, ignorant and are addressed in a derogatory or hateful tone.

In the case of Freemasonry and the Rosicrucians, they say they are Philanthropists, which means that they say they love humanity and that they give humanitarian aid, Of course, loving humanity means loving the majority, because indigenous people and those who, although we are not indigenous, are different from the majority, they do not consider us as humanity, they consider us as inferior, savage and uncivilized.

Although Aleister Crowley's sorcerer pretended to be against Christianity and called himself the Beast in reference to the Beast or Antichrist of the Apocalypse, and Aleister Crowley promoted Social Darwinism, which is the same thing that Christianity did in the inquisition and the colonization.

As the O T O is a sect created by a Freemason and Rosicrucian, it mixes Egyptian paganism with Christianity which is New Age, and in the O T O logo created by Aleister Crowley, although it contains Egyptian symbology such as the Eye of Ra, it also , contains Christian symbols such as the dove descending into the chalice, the chalice or cup and the Maltese cross, which is a Christian symbol used by Christian royalty:

The O T O is divided into three degrees called The triad of the Earth Man, The triad of the Lover and The triad of the Hermit, which is reminiscent of the Christian Trinity, in turn those three degrees are subdivided into other degrees within each one, It is seen that in a racist way they associate light (white) with good, and that within these degrees there is a Jewish, Catholic, Christian and Christian Gnostic influence:

- The triad of the Earth Man:

IV° [2] Perfect magician and companion of the Sacred Royal Arch of Enoch
PI. [2] Perfect Initiate or Prince of Jerusalem

- The Lover Triad:

VI ° -Illustrious Knight (Templar) of the Order of Kadosch and Companion of the Holy Grail
Grand Inquisitor Commander and member of the Grand Tribunal
Prince of Royal Secret
VII ° - Theoreticus, and most illustrious sovereign great inspector general
Wizard of Light and bishop of Ecclesia Gnostica Catholica
Grand Master of Light and Inspector of Rites and Degrees

- The Hermit Triad

VIII ° -Perfect Pontiff of the Illuminati
IX ° - Initiate of the Sanctuary of Gnosis

What all this means is that these occultists and satanists who pretend to be against Christianity, and Christianity that pretends to be against esoteric lodges, occultism, and Satanism, are actually all New Age.

They are not really enemies, because even in the name of one of the degrees they mention the inquisition of Christianity and they call themselves inquisitors.

Furthermore, these stupid people make people believe that Social Darwinism is the opposite of Christianity, and that not forgiving, not turning the other cheek, not loving your enemies, resentment and revenge are the same as harming the weakest, harming the innocent and harming the most vulnerable when they are not the same.

And when Social Darwinism is what Christianity implemented in the inquisition and colonization. The New Agers mention the apocryphal book of Enoch, because they say that the angels are the same extraterrestrials

It is the strategy that these monsters have always used to create things that appear to be opposite, contrary or at war, when in reality they are the same.

Therefore, the chess floor as a symbol of Freemasonry that symbolizes that they control the pieces that appear to be opposite and appears in the three types of lodges (obsession with the number three): York Rite, Ancient and Accepted Scottish Rite, and Scottish Rite Memphis Misraim.

And since the purpose is to create things that appear to be opposite or contrary, but in reality they are the same, they themselves invent conspiracy theories created by Christians and conservatives who pretend to be against these lodges so that everything remains the same without changes.

And where they put the majority of humanity that serves those in power and these lodges as innocent victims of the elites in power, when in reality the majority of humanity is complicit and servant of those in power and therefore so much of these lodges.

Therefore, when these Masonic lodges that interpret light and darkness as separate enemies (duality) where in a racist way they associate light (white) with good and darkness (black) with evil, They use the chess floor as a symbol, what they say is that they handle things that appear to be opposite or contrary.

The Freemasons in those photos look a lot like politicians who criminalize or hate indigenous people. The same with the Blue Apron (Political Right) and the Red Apron (the false Left of this continent).

Photographs recovered from the Internet

Those of us who know the history of Masonic lodges know that in the past only white men could be Masons.

But, in the present, there are black people who are Masons and there are Masonic logics composed only of women, and curiously in the majority of photos, they appear with the Blue Apron that represents the Right, as in this photo of a Masonic lodge of women in Argentina (one of the countries that has most encouraged and continues to encourage the genocide of Indigenous people and the most racist).

Photographs recovered from the Internet.

In this matter of whites and blacks, men and women, Freemasonry implies that they are an Opposite Duality, contrary and that is at war just like the symbol of the chess floor and just like the Red Apron and the Blue Apron.

When in reality: whites and blacks, men and women, are the same, in my writings I have proven that there are blacks who also hate indigenous people, and there are many women just as cruel and insensitive as many men and who prefer to have as a partner sexist men (cruel and insensitive).

By the way, the mottos of Fraternity and Equality of the French Revolution were inspired by Freemasonry, and it is in the French Revolution where the concepts of Political Right and Political Left were born.

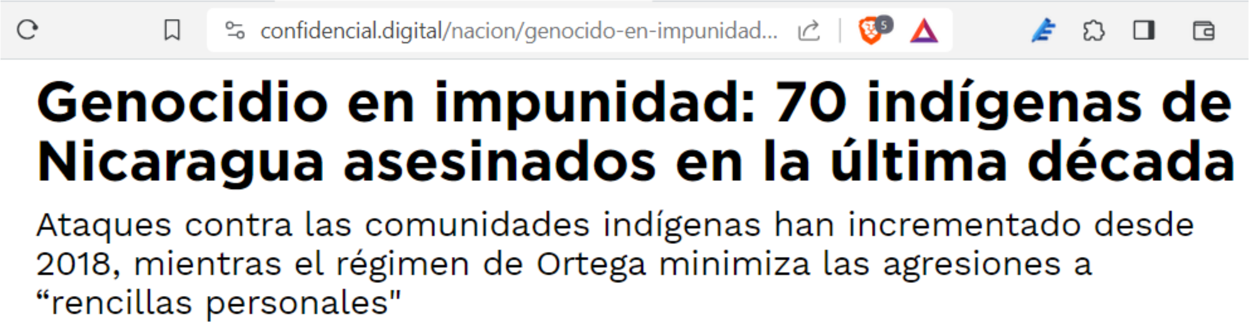
Equality and Fraternity are also concepts of European, White, Christian, Capitalist and Bourgeois origin. They create the problems and at the same time offer false solutions, because from Europe itself comes racism, white supremacy, Christianity, capitalism and classism.

Different skin colors are adaptations to the environment. Therefore, the place for white people is Europe and they should never have left there, the place for black people is Africa and they should never have left there (although the black people did not leave and it was the Europeans who brought them), and the place of the indigenous people is this continent to which the Europeans gave the colonialist name of America.

The multiculturalism that the system always presents as something sublime and good, in reality, is something perverse because in multiculturalism and its tool called the New Age or global religion of the elites, always the ethnic groups that are not indigenous (European whites, Creole whites, white mestizos, brown mestizos, blacks and Asians) overshadow, displace, distort, mix, diminish, replace and eliminate indigenous cultures.

Since my values are not Judeo-Christian and are not based on the New Age that is hippie, for me: revenge and resentment are not bad. For me: what is bad is harming the innocent, harming those who did not harm me, harming the weakest or harming the most vulnerable, but not revenge and not resentment.

I consider revenge and resentment as good, and I even believe that revenge and resentment should be personified in a goddess to whom rituals and sacrifices are made to those who deserve it, starting with the criminals in power.



Genocidio en impunidad: 70 indígenas de Nicaragua asesinados en la última década

All monotheistic and Abrahamic religions (Judaism, Christianity and Islam) are the same. In Türkiye the official religion is Islam.

In the following news it says: federal police investigate the trafficking of indigenous children from the Amazon to Turkey.

Screenshot recovered from Instagram.

What annoys me the most are people who claim to be Left-wing and politically correct, who cannot read a criticism of Judaism without saying that it is anti-Semitism and cannot read a criticism of Islam without saying that it is Islamophobia.

Worst of all, they imply that Judaism and Islam are races, which is ridiculous, because Judaism and Islam are religions and not races. Saying that Judaism and Islam are races is just as ridiculous as saying that Christianity is a race.

In the following sad and depressing image you can see hundreds of indigenous people of the Yanomami ethnic group being baptized into a Christian religion.

And it seems very accurate to me that in the publication the evangelization of indigenous people was called Ethnocide, because it is an Ethnocide where the indigenous people are caused to eliminate their gods and learn to hate themselves like the Nicaraguan mestizos with indigenous traits who are of Christian religions, although many whites, like many Costa Ricans, despise them and generalize them, and because of those disastrous Christian teachings of loving one's enemies, forgiving everything and turning the other cheek, they submit, allow themselves to be humiliated and dominated by those who hate them.

"Batismo" em massa do povo Yanomami, o etnocídio, o epistemicídio e a dizimação em prática.

Sad that the Christian government of Jair Bolsonaro was the one who massacred these indigenous people of the Yanomami ethnic group the most, causing the death of 570 children of this ethnic group, a true genocide, this ethnic group was the one that Jair Bolsonaro's Christian defamed, accusing of cannibalism in a video when that ethnic group does not practice cannibalism, and also saying that he wanted to see an Indian being cooked and that he would eat Indian meat without problems, implying that for them the indigenous people are simple resources and food.

And the Cannibal Holocaust films, both I and II, defame this ethnic group, accusing them of cannibalism, atrocities and raping women in groups, but evangelization makes them submit to being the food of hatred.

And the simplicity, gentleness, humility and connection of the indigenous people with nature is really reflected in all their physical features such as their dark, soft, smooth and hydrated skin, their soft and black hair, and their slightly slanted eyes.

And for this reason, genetics does have a lot of influence, but, although all this expresses their beauty, it also makes them easy victims of defamation, hatred, contempt, submission, domination, extermination and massacre.

In the following publication it is reported that: Child prostitution, Islamic association is investigated for human trafficking after offering studies in Turkey to indigenous children of the Amazon.

IV CHAPTER. CHRISTIANITY, THE HATE THAT INDIGENOUS ETHNIC PEOPLE SUFFER IN THE PRESENT, CRIMES AGAINST INDIGENOUS PEOPLE THAT LEAVE UNPUNNED AND THE RIGHTS OF MINORS

Conspiracy theories are invented by religious fanatics and people on the Right, these beliefs generate hatred against minorities and religious fanaticism, therefore, whoever believes in conspiracy theories is a criminal.

Those who invent conspiracy theories and those who support them should be in prison or an asylum for life, and be prohibited from accessing the internet.

These nefarious beings who invent conspiracy theories also promote the perverse belief in the antichrist who causes murders.

Currently, those who suffer the most from racism, discrimination, contempt, injustice, abuse, mistreatment, discrimination, racism, torture and murder are the indigenous peoples. And on the internet and social networks there are people who make hateful comments against indigenous peoples, even where they express being in favor of their being murdered or enslaved.

But, many times those of us who defend the rights of indigenous people, defend the rights of animals of other species and defend the environment suffer censorship on the internet, Facebook has censored me and disabled Facebook accounts for defending the rights of indigenous people, for defending animal rights and for defending the environment.

With the Bolsonaro government, these criminals go to indigenous territory to murder indigenous people and expel them from their territories, many times without any legal consequences, which is why all indigenous people in Brazil and all the countries on the continent should have weapons so that they can can defend against these criminals, especially when they are criminals related to a government that hates indigenous people like Bolsonaro's.

These people accuse indigenous people who are often in need and live in extreme poverty of being criminals, but their Portuguese, Spanish, British, French and English ancestors who stole their lands from the indigenous people, who abused, raped, tortured and murdered them, for these criminals they were good people because they were Christians like them.

Since these Right-wing Christian criminals see nudity as something bad, that is why they are depraved, that is why during colonization they sexually abused and raped indigenous people. But, in many indigenous cultures such as the indigenous cultures of Xingu in Brazil and indigenous cultures of many countries, nudity is not seen as something bad and they are not depraved like these Right-wing riffraff are.

Now, in indigenous cultures sexuality is not seen as something bad and enjoying sexuality is not considered bad. But these Christian mobs on the Right who see sexuality as something bad or immoral are the ones who commit the most sexual harassment, sexual abuse and rape, because it is the sexually depraved people who see sexuality as something bad.

Screenshot where a criminal from Brazil named Osmar Lima Maridao says: - These bastards had to be exterminated, these Indians, they want to have rights, but they don't want to have duties, bastards.

These right-wing, murderous Christian mobs forget that the indigenous people are the original inhabitants of this continent, and that the ancestors of these mobs like Osmar Lima Maridao who colonized them were the ones who invaded them and stole their lands.

Furthermore, they forget that indigenous people often live in extreme poverty and barely have enough to live on, but they still want to force them to pay taxes.

But, these people who hate indigenous people so much, do not know what it is like for indigenous peoples to go hungry, suffer needs, invasions and murders by people like them.

The majority condemns the atrocities committed by Nazism in Germany, but the majority does not condemn the atrocities that the United States has committed against the natives; The majority has never condemned that to this day the natives who remain in the United States are marginalized, forced to live in extreme poverty and need, and the majority does not condemn that the Hollywood industry was complicit in this with its films in favor of of the cowboys who murdered indigenous people.

Any United States government that does not apologize for the atrocities committed against the natives, and that does not give many lands and millions in money to all the natives of the present to repair the damage committed against the natives in the past is an accomplice of all the murders and atrocities committed against the natives.

Eu apoio os Índios nesses casos, o que diabo os caras vão caçar em área indígenas, já basta os garimpeiros que estão estuprando as crianças indígenas e poluindo o Rio tapajós que é o que tem de melhores no oeste do Pará

In this comment Cido Cavalcante clarifies that those people who were killed by those indigenous people go to hunt for pleasure in their territories, they are often miners who rape indigenous children and pollute their rivers from where they drink water.

That is to say, these people who were killed by those indigenous people were not innocent, since they harm the indigenous people and many times their crimes go unpunished. It is logical that the indigenous people get tired of seeing that justice is not done and seeing that for governments their lives and rights are not worth the same as for whites and mestizos.

These people claim that indigenous people are dirty, when in reality the custom of bathing every day comes from indigenous people, and many hygiene habits come from indigenous cultures.

The European colonizers (Spanish, Portuguese, British, French and English) did not bathe every day, they had very poor hygiene and that is why they brought many diseases to this continent.

If these people like Lucas Daniel Cordeiro hate indigenous people so much and feel more Portuguese than indigenous, just as there are racist Argentinians who feel more Spanish and Italian, they should all leave for Europe and never set foot on this continent, now that this continent does belong to indigenous cultures even though they have been colonized and stolen their lands.

What's more, these people should be expelled from all the countries on the continent and should go live in Europe, it is the same as racist Europeans, Europeans who are racist, in favor of colonization or neo-Nazis should be prohibit entry to countries on this continent.

There is always talk of the murders committed by Nazism and Hitler, and everyone condemns this, but not of the murders committed by the Christian government of the United States against the natives, nor of the current murder of indigenous people in Brazil and in many countries of the continent, and very few of us condemn this genocide, which is an injustice because the indigenous people do not have the power that the Jews have.

There is always talk about the murders committed by Nazism and Hitler, and everyone condemns this, but not about the murders of Palestinian children committed by Israel, which has the support of the most powerful criminal governments in the world such as the United States, and there are very few of us who condemn this genocide, which is an injustice because the Palestinians do not have the power that the Jews of Israel have.

All this shows the hypocrisy and double standards of the majority of humanity, they care about the Jews because since they believe in that evil god of the Bible, they know that the Jews were the ones who wrote the Old Testament and where the belief in that evil god arises.

The most evil, cruel and depraved people I have ever met are Christian people and people who support or justify the Right, even if they are not Christians and are atheists like the Dalas Review.

In Argentina and Chile, the Right has also caused damage and generated hatred against indigenous peoples such as the Mapuches, and cases of invasions of Mapuche territory and murders of Mapuches have also occurred.

The Right and libertarians want us to believe that crimes against indigenous people are a thing of the past, that racism against indigenous people does not exist in the present, and they deny that they suffer discrimination and that they suffer crimes in the present.

But, the Right and Libertarians continue to cause crimes against the indigenous peoples of the present and make these crimes go unpunished. Freedom is a crime when it causes harm to human lives, when it causes harm to animals of other species and when it causes harm to the environment.

Tolerance is a crime when what is tolerated is evil. The Right and the Libertarians, and any other government, even if it is not Right-wing and not Libertarian, that allows these crimes and allows them to go unpunished, they are evil and should not be tolerated.

But, always, those who most provoke these crimes against indigenous people are the Right and the Libertarians.

Criminals who invent conspiracy theories have invented a theory titled The Great Replacement Theory where they claim there is a conspiracy to replace white people and promote genocide against white people. This theory has been promoted by Right-wing clowns and libertarians like Agustín Laje, which further demonstrates the relationship of conspiracy theories with the Right and with Libertarians.

The reality is that since the United States and Canada were colonized, they sought to replace the natives (indigenous) with whites, and this plan continues in the present by forcing the natives to live in small reservations, to live marginalized, in extreme poverty, suffering many needs and with great difficulty in getting a job, what is sought is for the natives to reproduce less and less by living in these conditions, and for the whites to be the only inhabitants of the United States and Canada, and the whites continue to overpopulate the planet, while the natives (indigenous) reproduce less and less due to the conditions in which they live.

In Brazil and the countries where Spanish is spoken, the genocide against indigenous peoples continues, and the only humans who do receive respect are whites and mestizos, therefore, when indigenous people suffer invasion of their territories, torture, abuse, rape , mistreatment, contempt and murders, many times these crimes go unpunished and these crimes are committed with the complicity of governments.

These crimes, in addition to seeking to reduce the indigenous population despite being only 5% of the world's population, also seek to cause fear among the indigenous population to have fewer and fewer children and their population to decrease even more, and only Creoles and mestizos exist in these countries.

On television, the media and the entertainment industry, the majority of those who appear there are Creoles and mestizos, while the indigenous population continues to be made invisible and are rarely included.

Many requirements are asked for in jobs that indigenous populations do not have, and most of the time it is preferred to employ Creole and mestizo people, while indigenous people have many difficulties finding a job.

White is still considered beautiful and indigenous is ugly, which is why, in the modeling industry, the majority of men and women are white or mixed-race, and very few are indigenous. In addition, the same media and the entertainment industry present white people as pretty and indigenous people as ugly, which is why the majority of boys and girls consider white people to be prettier.

Currently many indigenous people are alienated with Christianity and there has been success in converting them to Christianity, this is also part of the plan to end the indigenous, since the original indigenous beliefs are presented as something bad and always related to human sacrifices.

When at present many of the rituals to Pachamama consist of offerings of food and drinks to Pachamama, and not sacrifices, the same thing happens with other indigenous beliefs in which sacrifices are no longer practiced at present.

That in many schools (primary) and many colleges (secondary) religion continues to be taught, and that teachers who are not religious continue to say things to favor Christianity, it is part of the plan to end the indigenous.

Although, there is nothing wrong with an indigenous person and a non-indigenous person falling in love and forming a family.

Miscegenation in the context of colonization, if it was in the past and if it is in the present, part of the plan to end the indigenous, it was sought that, when mixing with the indigenous, white genetics would prevail over indigenous genetics and that the new generations were increasingly whiter, in addition, miscegenation was a way of evangelizing and making the new generations Christian.

Durante o terceiro ano de mandato de Bolsonaro, 176 indígenas já foram assassinados no Brasil

Image with text: During the third year of Bolsonaro's government, 176 indigenous people have been murdered in Brazil. Image recovered from: https://www.instagram.com/p/Chh2cTkMycF/

The previous image was shared on the Indians_do_brasil account with the following text: - Attacks on indigenous peoples in Brazil are increasing. In the first months of 2022 alone, 176 indigenous people have been murdered in the country. The figure almost reaches the total sum of 2020, when 182 indigenous people lost their lives violently. Text recovered from: https://www.instagram.com/p/Chh2cTkMycF/

It is for all these reasons that whoever supports or justifies right-wing and libertarian political parties is a criminal, who should be harshly punished by law, is an accomplice to these murders and has no forgiveness. The existence of Right-wing and Libertarian political parties should be considered a crime worldwide and banned worldwide.

Indigenous communities should be valued for their values such as humility, hospitality and sharing, for their values of caring for forests and rivers, and for their beauty.

Their art and ways of farming in harmony with the environment should be valued.

The forms of indigenous spirituality, and their gods and goddesses such as: Pachamama, Amaru, Taoiwa, Spider Woman, Curupira, Ixchel, Hun Nal Ye, Coquena, Ekeko, Laka, Duhindu and Whope, must be valued.

In Mexico there has always been racism against the indigenous people, in fact, mestizaje was a way to whiten Mexico and wipe out the indigenous people through mixing with Europeans and Christianity, and this was promoted by the governments.

In countries where people descend from indigenous people such as Mexico or Guatemala and other countries where the majority descend from indigenous people, there are many people who discriminate against indigenous people and who promote hatred against indigenous people.

This is also encouraged in soap operas and trash programs on television, because television stations and the entertainment industry are often trash at the service of the Right and Christianity, and that is why their existence should be prohibited and considered a crime.

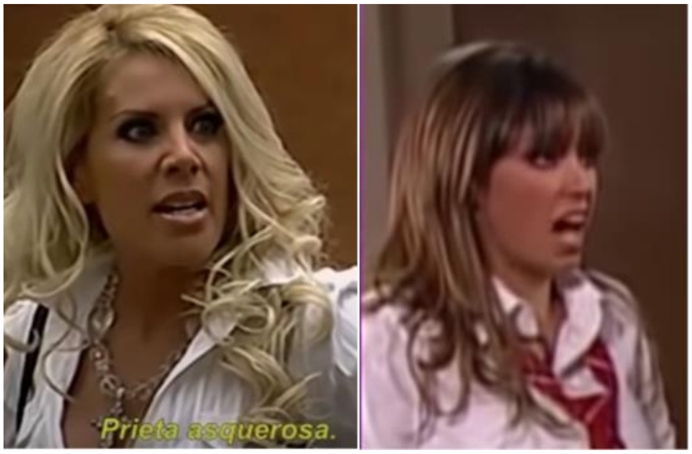
The classist and racist actress Barbara de Regil saying in a racist way: - Oh how dark! No! How ugly!

In Mexico, racist and classist people use the word Prieto to refer disparagingly to people with brown skin as indigenous people. This should have legal sanctions and be considered a serious crime. Screenshot recovered from: https://www.youtube.com/watch?v=ioYk72xbY5E



The character Monserrat Torres played by actress Lorena Herrera in the soap opera Lola, once upon a time says the phrase: -disgusting prieta.
The character Mía Colucci played by Anahí in the Mexican trash soap opera Rebelde says the word in a derogatory way: - India.
Even though they are characters, there should be legal sanctions against the trash television station Televisa for promoting hatred and racism against indigenous people, and legal sanctions against these actresses for promoting this in their characters. Also in the United States, many series and movies promote contempt for Natives and refer to Natives in a totally derogatory way.

Most of the content in the media and in the entertainment industry is garbage, it is content in favor of Christianity, in favor of hatred of indigenous people, in favor of machismo, in favor of classism and in favor of racism.

Most of the media (television, radio and newspapers) and most of the entertainment industry (movies, news, series, soap operas and television programs) are a cancer, and are part of the problem that generates rejection, discrimination, marginalization and intolerance against indigenous peoples.

The Right-wing riffraff, the crazy people who invent conspiracy theories and the neo-Nazis complain that they are being invaded by Islamists, but what they don't say is that they are being invaded by Islamists because Right-wing countries like the United States went to invade these Islamic countries first and what they don't say is that Islamic terrorists like the Taliban have weapons because right-wing countries like the United States gave them to them.

Islamists are a religion and not a race, if one reads the Koran, in the Koran there are parts in favor of human slavery, homophobic parts and sexist parts just as in the Bible, in fact, Allah is the same god in the Bible.

But, if Right-wing countries like the United States had never invaded Islamic countries like Iraq, Iran and others, there would never be Islamic immigrants in Europe and on this continent, nor will there be mosques on this continent and in Europe.

The rabble on the Right, the crazy people who invent conspiracy theories and the neo-Nazis say that Europe must be white and according to their madness that there is a conspiracy to replace the whites, when in reality they are the ones who have replaced the indigenous people with whites and those who have murdered indigenous people.

But, what they don't say is that Right-wing people like them who supported the church and the King were the ones who went to bring black slaves to Africa for Europe and for this continent, the Africans did not arrive alone in Europe and this continent, the Africans were in the past brought as slaves to this continent and to Europe by Right-wing trash people like these crazy people who invent conspiracy theories, like Right-wing murderers and like neo-Nazis.

The crazy people who invent conspiracy theories and the criminals on the Right say that they want to give Special Rights to the indigenous people and that is why they are against them having our same rights, in response to them:

Special Rights would have been that the indigenous people would have invaded Spain, Portugal, France, England and Brittany, and stolen the lands that belonged to the Spanish, Portuguese, French, English and British.

Special Rights would have been that the indigenous people would have forced the Spanish, Portuguese, French, English, British and mestizos to live in small reserves, experiencing extreme poverty and need.

Special Rights would have meant that indigenous people would have the majority of jobs and companies, while Spaniards, Portuguese, French, English, British and mestizos would have fewer opportunities to find work.

Special Rights would have been that the indigenous people were considered superior because some had dark skin, shiny black hair, a wide nose, slanted eyes, and were strong, while, they would be considered inferior to white people, with brown or blonde hair and light eyes.

Special Rights would mean that whites and mestizos suffer invasion of their lands, suffer genocide, mistreatment, abuse, rape, torture and murder, without justice being done and often remaining unpunished, while if an indigenous person suffers the same crimes if it is done justice.

Special Rights would be that, if a white or mestizo commits a crime, infanticide, makes a sacrifice or rapes, it is affirmed that all whites and mestizos are like that, that they all make sacrifices, that they all murder children and that they are all cannibals, while if An indigenous person does the same thing, don't say that everyone is like that.

Special Rights would be that the majority of the world's population were indigenous, and the minority of the world's population was mestizo and white.

Special Rights would be that indigenous people are loved and considered attractive for their skin color, physical features and hair color, while whites and mestizos are hated for their skin color, physical features and color of hair.

Special Rights would be that when an indigenous child is born, the majority say that he is very cute, while, if a white child is born, with blonde hair and blue eyes, the majority do not say that he is very cute.

Special Rights would be that indigenous beliefs and traditions are respected, and indigenous traditions and beliefs are the majority in the world, while the beliefs and traditions of whites and mestizos are a minority in the world.

Special Rights would be for indigenous people to invade white countries and get involved in conflicts between whites where they were not called to intervene.

But, there are no Special Rights for indigenous people, on the contrary, there are Special Rights for Europeans, Creoles and mestizos, not for indigenous people.

Brasil: la impunidad se instala sobre asesinatos de los defensores ambientales indígenas

Dos años después de la muerte del defensor ambiental indígena Ari Uru-Eu-Wau-Wau, en el estado amazónico de Rondonia, al norte de Brasil, las preguntas sobre quién y por qué lo mataron siguen sin respuesta. Los perpetradores de crímenes contra activistas ambientales rara vez son llevados ante la justicia en este país. Un informe del gobierno indica que no hay ninguna condena para las 35 personas muertas en incidentes de violencia en 2021, aproximadamente un tercio de ellos ocurrieron en Rondonia.

Perpetrators of crimes against environmental activists are rarely brought to justice in this country. It strikes me that there has always been talk of racism towards black people and it is condemned throughout the world, which is very good, but no one talks about racism towards indigenous people who even suffer murder in right-wing governments like Bolsonaro's in Brazil, and in the United States the natives are the most marginalized and those who live the most in extreme poverty, but nobody talks about that.

There are few natives in the United States who have casinos, the majority live in extreme poverty.

The relationship between the Right and the Libertarians is nothing new, it is known that Simón Bolívar who was considered the first Libertarian was Catholic and also had prejudices against the indigenous people.

A phrase from Simón Bolívar was: - Of all the countries, South America is perhaps the least suitable for republican governments, because its population is made up of Indians and blacks, more ignorant than the vile race of the Spanish, from which we have just emancipated ourselves.

Also, without falling into disastrous conspiracy theories invented by Right-wing Christians, it is said that Simón Bolívar was a Freemason just as George Washington was a Freemason.

Most of the Freemasons of the past and the majority of Freemasons of the present are from Christian religions such as Catholic or Evangelical.

Freemasonry is based primarily on Judaism and lends credence to the Old Testament of the Bible by stating that Hiram, who was the builder of Solomon's Temple, really existed and was the first Freemason.

Although it is true that there are Freemasons of different beliefs and even pagans, the majority of Freemasons when they talk about GADU (Great Architect of the Universe) are mostly Christians and Jews if they refer to the god of the Bible.

In most Masonic lodges an open Bible is placed on the altar, another relationship with Christianity is that before being a lodge, the Masons were masons, in fact, the word Mason means builder, and that is why it is given a lot of importance to the square and the compass, the Freemasons were the builders of the Gothic cathedrals of Europe.

Although it is true that there are currently Masonic lodges where women, homosexuals and blacks can enter, in the past, only men, white and heterosexual, could be Masons. For example, the Freemason Albert Pike belonged to the Ku Klux Klan.

And something that is true and is not a conspiracy theory, is that many politicians, lawyers, judges and people in power are Freemasons, However, when the topic of Freemasonry is discussed, we must be very careful because there are many lies written by criminals who invent conspiracy theories and who attack Freemasonry with the purpose of defending Christianity and the Right.

When in reality throughout history, Freemasonry has often favored Christianity, hatred of indigenous people and the Right by being an elitist institution.

And many times those who invent conspiracy theories mix some truths with many lies with the same purpose of favoring Christianity and the Right.

It is true that Freemasonry is often similar to the New Age because it mixes Judeo-Christianity with parts of Greek paganism and Egyptian paganism.

By the way, the Jews, although they believe in a jealous and tyrannical god who condemns the worship of other gods, and orders in the Bible to murder and enslave people from cultures that believe in other gods, the Jews copied the Old Testament to invent to Egyptians, to Sumerians, to Assyrians and to Greeks.

Just as the European colonizers (Spanish, Portuguese, French, English and British) did not bathe every day, which is why they were very unhygienic and brought diseases to the continent that killed many indigenous people, the Jews in the same way did not have the habit of bathe every day and that is why they suffered infections in their genitals.

Therefore, to avoid these infections in their genitals, the Jews copied the circumcision of the Egyptians.

By minors' rights I mean rights of both boys and girls, and of both adolescents and adolescent girls, without distinction of sex.

Among the forms of violence that minors can suffer are physical violence, verbal violence, emotional violence, neglect, sexual abuse and rape. These forms of violence can be abuse when there is no intention to harm or abuse when the intention is to cause harm.

Physical violence consists of hitting, pinching, burning, wounding, underwater restraints, tying, and shaking.

Among the symptoms that a minor is suffering from physical violence are poor school performance, changes in behavior, fear that something will happen, low self-esteem, aggressiveness, avoiding being at home, loss of consciousness, and physical injuries.

Emotional violence is when the minor receives contempt, lack of understanding, lack of listening, their emotions are ignored or they receive hurtful words towards their emotional part.

The symptoms that a minor is receiving emotional violence are depression, low self-esteem, crying, fears, learning problems, attention difficulties, addictions, guilt, mood swings and conflictive relationships with others.

Verbal violence is when the minor suffers insults, ridicule, criticism and is embarrassed in public. The symptoms are the same as in emotional violence.

Minors may receive physical, emotional or verbal violence both from their fathers and mothers and from other family members and other adults or even by other minors at school (primary) or at school (secondary) in what is known as Bullying, and also in the form of cyberbullying or cyberbullying, which is when it occurs through digital means such as social networks.

Negligence is when the adults in charge of raising the child do not take care of their physical and emotional needs, by not feeding them, by not taking care of their hygiene, or their safety, or their protection, by not taking care of their medical care and by not showing affection, also by exposing him to witness situations of physical, verbal or emotional violence.

Sexual abuse occurs when an adult touches the private parts of a minor or exposes him or her to prostitution.

Rape occurs when an adult has sexual relations with a minor with or without their consent. A minor can also sexually abuse another minor, when a minor sexually abuses another it is because that minor was also sexually abused.

We can help minors who suffer some type of violence, neglect, abuse or rape, following the following recommendations:

1. Believe and listen to the minors who have been victims.
2. Thank them for their trust in talking about what happened to them.
3. Report the crime committed against him or the minor before the judicial institutions, we must remember that not reporting these crimes is being accomplices and that in many cases a report can be filed anonymously.
4. Seek help with professions for him or her.
5. Talking about these issues is the best way to prevent.

All minors have the right to be understood, to be heard and to be educated without physical violence, without verbal violence, without emotional violence and without sexual violence.

When a minor receives blows, insults, humiliation or misunderstanding, this causes them to develop low self-esteem, poor self-image and violent behavior towards other children or even towards animals of other species.

Minors are never the property of their fathers, mothers, or other adults, because they are not objects, and they are educated through affection, good examples, listening, and good communication. Harming someone who is weaker, such as a minor, is not educating, it is a crime and it is cowardice.

It is also important to avoid overprotection, and teach the child little by little and according to his age to be independent.

If a minor does something wrong without knowing it, parents or other authority figures should explain why what they did was wrong with respect and never attack them for something that the minor did not know was wrong.

Educating a minor is teaching him through dialogue and example to communicate what he thinks and feels, teaching him empathy and compassion, giving importance to what he feels and thinks, It is understanding and listening to him, it is recognizing mistakes, it is showing affection with hugs and words of appreciation, and it is setting limits through clear and non-violent communication.

For a minor to understand why a behavior is bad, they must be given reasons, never just because, and the adults around them should never carry out those behaviors that they do not want the minor to repeat.

Violence against a minor is never discipline. Discipline is congratulating the child when he does something well, teaching him responsibilities such as making his bed, teaching by example and using arguments.

It is important to teach them to say hello, to ask for something politely, to say goodbye, to listen and be listened to, to say thank you and to teach them good hygiene habits such as washing their hands after going to the bathroom and brushing their teeth, among others.

In the case of minors, discipline must be established through rewards and limits that are reasonable according to the age of the minor. Regarding the prevention of any form of violence, abuse and mistreatment against minors, it is important:

1. Talk about these topics and report on them.
2. Teach minors to take precautions in a way that is understandable for their age.
3. Take care of minors.
4. Report if you know that a minor is suffering from any of these events.
5. Promote care for the physical and psychological health of minors.
6. Participate in prevention campaigns by all possible means.
7. Help encourage reflection, promote the right to give an opinion and listen.
8. Promote freedom of expression without distinction of age.
9. Tell minors about the risk situations they face in a way that they can understand.
10. Teach minors the importance of saying no and asserting their rights.
11. Teach minors to ask for help when they need it.

Indicators that a minor may be suffering from situations of neglect, mistreatment, abuse or rape:

1. Depression, crying and unhappiness.
2. Aggression with other children, with animals of other species or with authority figures.
3. Fear of certain people or certain places.
4. Poor school performance.
5. Culpability.
6. Consumption of substances such as drugs or alcoholic beverages.
7. Suicidal ideation, suicide attempts, or self-mutilation.
8. Post-traumatic stress disorders.
9. Nightmares and sleep problems.
10. Bruises, wounds, bleeding or scars.
11. Retreat.
12. Hyperactivity.
13. Leaks, lies or theft.
14. Lack of hygiene.
15. Underweight or malnutrition.

16. Cavities.
17. Speak in a whisper or slowly.
18. Constant hunger, stealing food or begging for it.

That a child at a certain moment throws a tantrum, screams or cries is never a justification for hitting him or mistreating him, because in the first place, children never understand things the same as adults, and by throwing a tantrum, screaming or crying, they are never hurting anyone.

If a child throws a tantrum or screams, because the father or mother does not love him or cannot buy him something, the solution is for the father or mother to let him throw the tantrum or scream without giving it importance, because this way he learns that throwing tantrums or shouting will never achieve anything, never being bought what you ask for, nor being hit or pinched, nor being insulted.

It is true that many will say that he is spoiled, that he needs a few spankings, pinches or slaps, or will criticize his parents, because they are ignorant and their parents gave them an upbringing that is rubbish, because they were child abusers, sexists and religious fanatics, but I always denounced the damage caused by the sick society in which we live.

If there is something I hate, it is those parents or stepparents who hit a child or stepchild for crying, when someone crying never justifies the beating or the abuse, and someone crying never hurts anyone and crying is good, A child can cry for anything and with that he is never hurting anyone.

A boy or girl can laugh all they want and no parent threatens to hit them for it, but many times just because a boy or girl cries, an abusive father or abusive mother offers to hit him for that, no one is bothered when someone laughs, but many are bothered when someone cries. Crying and expressing emotions is never weakness or something bad, contrary to what the New Age with its toxic positivism, machismo and neo-Nazis makes us believe.

It is the sick society in which we live that teaches people that listening to someone cry is something annoying or unpleasant, when it should never be considered that way, because someone expressing what they feel should never bother anyone, nor be uncomfortable, nor unpleasant to anyone, but there are people who, due to the sexist upbringing they had, are bothered by the crying of a child.

You can never trust other adults or other minors or the same family, because most of the time it is the same family that mistreats or abuses minors, and minors who have suffered sexual abuse could do the same to other younger minors, without generalizing or putting all minors who have suffered abuse in the same bag.

There are also people who say that, according to them, the fact that a minor gets involved in the conversations of adults is a lack of respect, as if children and adolescents never had the same right to give their opinions and express what they think as adults. Lack of respect is actually taking away a person's right to give their opinion and express what they think and feel, just because of their age, just because they are a minor.

I have never liked people who are adult-centred, just as I have never liked humans who are classist, both seem equally harmful to me, and totally unpleasant and ignorant. A child or adolescent who suffers physical, verbal, psychological or sexual abuse can take out their suffering or pain on other children, other human beings or other sentient beings such as animals of other species.

Therefore, child abuse is something that affects everyone. A minor who suffers cruelty or sees it at home, on television or at school, can learn to be cruel, in many cases, without generalizing to everyone. A minor who shows signs of affection, and who is shown empathy and understanding, is more likely to have empathy for the pain and suffering of others, and to be more empathetic and responsible, and less likely to commit crimes.

Bullying has a lot to do with machismo, children who abuse physically, verbally or psychologically do so because of the sexist upbringing they receive from their parents and the media such as television, which make them believe that being aggressive, cruel, insensitive or humiliating someone who is weaker, who did not hurt them and who cannot defend themselves is being strong, powerful or admirable, when in reality it is cowardice and being miserable.

Sexist upbringing is experienced by both men and women, which is why so many boys and girls can bully. Teachers who allow bullying or encourage it should be expelled, their title or permit to practice confiscated, and strong sanctions applied.

Whoever witnesses the bullying that a child or adolescent suffers, and never reports it or does anything to prevent it, is an accomplice and just as guilty. Bullying causes suicide, low self-esteem, whoever bullies another, in addition to mistreating and humiliating them, can lead them to suicide, and by leading them to suicide it is murder.

I am aware that one is never a gold coin for everyone to like, But the fact that everyone never likes you is never a justification for them to hurt you, insult you or harm you, because if someone doesn't like you, that person has to keep it to themselves in their mind, and in the same way if you don't like a person that is never a justification to hurt them, or to insult them, or To hurt him, you have to keep that in your mind.

If another person dislikes you or is unpleasant, what that person has to do is get away from you, Just because someone is unpleasant or dislikes you never justifies harming you, insulting you, or hurting you; The same thing happens if there is a person that you don't like or dislike, what you have to do is stay away from that person, never hurt them, insult them, or hurt them.

Educating a minor is providing arguments and reasons why a way of behaving is bad, and for the minor to internalize those reasons and arguments, and behave correctly because they understand the reasons and arguments, and never out of fear of their parents or because of fear of other adults.

It is educating him by example, it is giving signs of affection such as hugs, telling him that you love him and congratulating him when he behaves well, letting him express emotions, even if it is crying for nothing, crying for nothing is never hurting anyone and putting limits without attacking.

Hitting a minor is physical violence and never educating, saying hurtful words or insults to a minor is verbal violence and never educating, ignoring a minor and never allowing them to express what they think or feel is emotional abuse and never educating them, but people A conservative who is from the Right believes that physical violence, verbal violence and emotional abuse against a minor is, according to them, education, and this thought comes from the Bible.

Proverbs chapter 29, verse 15: The rod and correction give wisdom; But the spoiled boy will shame his mother.

Proverbs chapter 23, verses 13 and 14: Do not stop disciplining your children; the rod of punishment will not kill them. Physical discipline may well save them from death.

At present, most psychologists agree that if a father, mother or guardian hits a minor it is physical violence and never educates, but many of these psychologists also believe in the God of the Bible and in Jesus Christ, which is a contradiction.

As long as people believe in the God of the Bible and in Jesus Christ, there will continue to be people who justify physical abuse, verbal abuse and emotional abuse against minors, justifying themselves with the fact that it is educating with the Bible.

Furthermore, these monotheistic religions have always made it believe that children are property of their parents and that since they are property just like a car or a house of their parents, Therefore, parents have the right to do what they want with their children or to educate them as they want, when in reality minors have the same rights as adults, they are not objects and therefore should never be considered property.

Palestinian children murdered by the Israeli army. Right-wing parties and politicians such as Donald Trump, Jair Bolsonaro and VOX from Spain, and also Right-wing politicians from Costa Rica support the state of Israel, the previous photos are photos of Palestinian children murdered by the state of Israel.

And before anyone calls me a racist and anti-Semitic, I remind you that Judaism is not a race, Judaism is a religion, saying that Judaism is a race is the same as saying that Christianity is a race, in fact, if you never Had Judaism existed, Christianity would not exist either, Christianity emerged from Judaism.

Why do you think Right-wing politicians say that Western Judeo-Christian culture must be protected?

And with regard to the fake Right-wing vegans who support the state of Israel, they speak against intersectional veganism because they say that according to them you cannot defend animals and humans at the same time, and they say that in Israel there are many vegans:

I remind you that it was the Jews (Israel) who wrote the Old Testament where it is written that that god told human beings to dominate animals of other species (Genesis chapter 1, verse 26), that that god told them to cause fear to animals of other species and eat them (Genesis chapter 9, verses 2 and 3), that this god preferred the animal sacrifices of Abel and rejected the vegetable offerings of Cain (Genesis chapter 4, verses 3, 4 and 5) , and who dressed Adam and Eve with animal skins (Genesis chapter 3, verse 21).

Any government in the United States and any country in the world that supports the state of Israel is a criminal and complicit in the murders of Palestinian children committed by the Israeli army. All Israeli embassies in countries on the continent should be expelled and their existence prohibited.

These right-wing Christian and racist criminals are capable of harming innocent indigenous children. In fact, in Brazil and other countries on the continent, when they invade their territories, they shoot them regardless of whether children die and the children who remain alive are orphaned.

The Christian Right hides these crimes, it is time for us to bring them to light, we do not allow them to continue committing these atrocities, let us stop the genocide against indigenous peoples that is being committed in many countries with the support of genocidaires like Jair Bolsonaro and Donald Trump who have the support of VOX of Spain and support the genocidal state of Israel, and let us help the indigenous peoples as much as we can, let us not allow the indigenous peoples to disappear, nor to be forgotten.

News where the murderers who support Bolsonaro threaten to murder ten indigenous student children from the Guaraní and Kaiowá peoples. News recovered from: https://www.instagram.com/p/CghW9agoYoM/

Right-wing political parties also cause harm to children due to ethnicity and nationality, and also to all children in the world since by supporting Christianity they are supporting the Bible, which is a book where it is written that violence against children is educating.

Furthermore, Christianity has always taught that children are the property of their parents and that parents can do whatever they want with their children.

Someone who claims to defend the rights of children and at the same time is from the Right is a hypocrite, with double standards and is not defending the rights of minors, on the contrary, he is someone against the rights of minors.

This is another reason why Right-wing and Neoliberal or Libertarian parties should be banned throughout the world, their existence should be considered a crime and those who defend, support or justify them should be considered criminals.

One of the theories of these clowns who invent conspiracy theories is that according to them vaccines are an invention of the elite to eliminate the world's population and reduce it. Because of these criminals, diseases that were eliminated such as measles, tetanus, diphtheria, smallpox and others thanks to vaccines, are re-emerging.

There are also cases of children who have died from these diseases due to having parents who believe these stupid things that these people against vaccines write, therefore, those who invent conspiracy theories and those who promote them are totally guilty for the death of these children, and therefore they are murderers for causing these deaths.

A clown who promotes these conspiracy theories against vaccines and who talks about a plandemic to deny the pandemic just as neo-Nazis talk about a holocaust to deny the holocaust caused by Nazism, is Dr. Chinda Brandolino.

This doctor was interviewed by Nicole Neumann, and in addition, she is part of the Right like all those who invent conspiracy theories, since she has collaborated with Agustín Laje Arrigoni to debate against feminists, promotes Catholicism and the cult of the Virgin from Fátima, affirms that the colonizers were heroes and cries emotionally when talking about it in a video about Hispanicity and is against abortion at any stage, just like other Right-wing clowns like Agustín Laje.

These criminals from Doctors for Truth who spread lies against vaccines, among whom is also the Spanish Natalia Prego who is just as crazy as Chinda Brandolino, They become victims when they are legally sanctioned for causing harm to human lives and causing the deaths of children for not getting vaccinated.

Just as Christianity with the Catholic Church and with the evangelical or Protestant religion throughout history have caused atrocities inspired by the evil book called the Bible, and they also play victims, and claim to be persecuted and martyrs, when in reality They are the ones who persecute those of us who do not believe in that nonsense, they are the ones who promote hatred against minorities, who cause crimes and promote intolerance.

Furthermore, just as some of these criminals deny that COVID exists, they have also denied that AIDS and Cancer exist, this is how these criminals cause many people who believe the stupid things they write or say in videos, not to receive adequate treatment for their illness, and end up dying because of these clowns and those who promote their silly conspiracy theories.

Unfortunately, most people in their ignorance believe any stupidity they read on the internet, or any stupidity they hear or see in a documentary or video created by ignorant criminals.

These criminals who invent conspiracy theories say that they scare people with the fact that there is a pandemic or virus, But, they also manipulate people through fear, affirming the stupidity that according to them the elite wants to murder the majority of the world's population and according to them, they want to decrease the world's population.

When the only population they want to reduce is the indigenous peoples, even though they are only 5% of the world population.

The reality is that the elite such as presidents and royalty are not interested in reducing the world population of white and mixed-race humans because the more humans there are in the world, the more money they earn through taxes that each of those people pay.

Hitler and the Nazis made up the lie that Jews are a race, and today the neo-Nazis repeat the same lie. Judaism is a religion and not a race, just as Islam is a religion and not a race.

However, the clowns who invent conspiracy theories, as they are all Christian people on the Right, want to make it seem that there is a conspiracy against Christianity and against monotheism in general, which is a lie, because in reality, the elites and the Most powerful governments have always supported Christianity and monotheism in general.

Although it is written in the Bible that Israel is the chosen people of that evil god, the state of Israel did not exist before 1948. It was in 1948 when the state of Israel was created with the support of the United States government and many governments of European countries.

Before the creation of the state of Israel, Jews and Arabs lived together in the same territory, But after the creation of the state of Israel in 1948, many Jews who lived in the United States and in European countries emigrated to Israel, and that was when the conflict between Jews and Palestinians began.

If people investigated, they would realize that there are two groups with the most power in the world and that make the world as it currently is, one is the Christians made up of evangelicals, Catholics and other Christian denominations, and the other group is the Jews.

The majority of film directors, politicians and businessmen are part of them Christians and the other part are Jews.

V CHAPTER. THE MAJORITY IS COMPLICY AND GUILTY FOR THE GENOCIDE AND THE MASSACRE

How stupid the majority is: I have already seen how they attack indigenous people for using technology, clothing or using social networks, telling them or writing that this makes them stop being indigenous, that is too much stupidity on the part of the majority.

To be indigenous in the first place is to be part of an ethnic group, to have a simple and humble way of being, not to be a consumerist, and to live in harmony with the environment, and to feel indigenous. That an indigenous person uses technology, cell phones, clothing and social networks does not make them less indigenous.

It's like stupid people who reduce the indigenous to only the physical, when indigenous is not just the physical, indigenous encompasses the way of being, vision of the world and way of thinking, and not just the physical.

Also, there are stupid people who can say that in ethnic groups like the Arhuacos or the Koguis, having high self-esteem means that they are not humble because they even call themselves older brothers.

That is because in their stupidity they associate humility with the Christian concept of humility which consists of feeling inferior or humiliating oneself, but the indigenous concept of humility is not the Christian concept of humility. The indigenous concept of the word humility does not mean feeling inferior and does not mean humiliating oneself.

In the year 2023, leaders of the Guaraní and Kaiowá indigenous ethnic group are tortured, detained and attacked by the neo-Nazi military police of Brazil.

In the video you can clearly see the intention of the police officers to continue promoting indigenous genocide in Brazil and as always, these disgusting garbage that are these police officers will go unpunished for attacking indigenous people as happens in all the countries of this colonialist continent that was given the name of America in honor of a conqueror.

Photographs recovered from Instagram

Therefore, I am absolutely right when I say that the majority of white Creoles, white mestizos and brown mestizos are bad because they are totally indifferent to the suffering and oppression suffered by indigenous people in the present.

Unfortunately, the majority of indigenous people in all countries on this continent have been brainwashed by Christianity and with those Christian teachings of loving your enemies, turning the other cheek and forgiving everything that only cause them to be dominated and subjugated by the white creoles, white mestizos and brown mestizos who have harmed them.

As long as in these countries there are presidents, deputies and senators who are white Creoles, white mestizos and brown mestizos: indigenous ethnic groups will continue to be treated as criminals when they defend their rights, they will continue to suffer injustices, suffer genocide, suffer extermination and expulsion from their territories.

Lula's alliance with criminals who support Bolsonaro is stupid, and I say criminals because all those who support Bolsonaro are complicit in the injustices suffered by the indigenous people of Brazil.

This pacifist attitude with the Bolsonaro supporters does not help at all, with those criminals who want to exterminate the indigenous people and harm them, it is a crime to be peaceful.

Pacifism is a crime when injustices are tolerated. Tolerance is a crime when evil is tolerated.

The Right is the one that harms the indigenous people the most, but also in Left governments these injustices occur against the true owners of the countries of this continent, and they are the true owners because they were there before the white Europeans arrived and before that the mestizos.

The Left is also totally complicit because it allows these injustices against indigenous people to continue happening and its attitude towards those who commit these injustices is totally peaceful.

Many times, the disgusting police officers and disgusting soldiers in the service of neocolonialism who attack indigenous people and commit crimes against indigenous people go unpunished for these crimes in all the countries of this continent, regardless of whether this happens in governments of the Right, in governments of the Center or in governments of the Left.

In Nicaragua and Honduras, the indigenous people of the Miskito and Mayangna ethnic groups also suffer invasion of territories, expulsion from their territories and murders with the complicity of the governments of these countries.

Alexander Urbina Mora is a police officer from the Miskitu ethnic group who was murdered. Any government that allows injustices to be committed against indigenous people, regardless of whether it is Right, Center or Left, is complicit and guilty.

Rudwell Rosales is an indigenous leader of the Miskito ethnic group who had to flee to the Catholic, colonialist, racist and white supremacist country of Costa Rica (which is the same as Argentina) due to the invasion of territory, injustices and murders they suffer in Nicaragua.

The Miskitos who defend their lives and their territories suffer torture such as amputations of legs and fingers by the settlers and the police. And this is the same in all countries on this continent.

The indigenous people of the Mayangnas ethnic group suffer from criminals burning their houses:

Photographs recovered from the Internet

Indigenous people of the Mayangnas ethnic group also suffer murders.

Although in some Left governments such as that of Nicaragua and Argentina, the same crimes and injustices occur against indigenous ethnic groups.

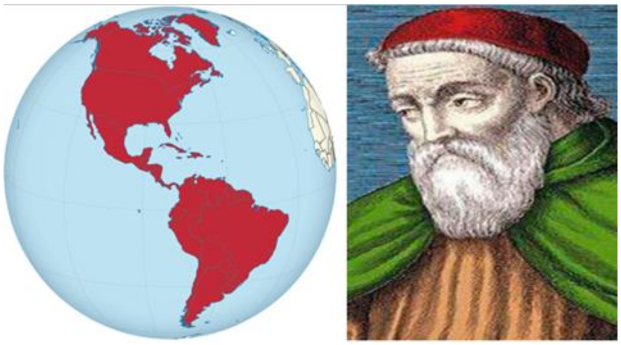
These injustices and crimes always happen more in Right-wing, Libertarian and Neoliberal governments, as I have already proven.

But it is important that all the injustices suffered by indigenous people be reported, regardless of whether the country where these injustices are committed is Left, Right or Center.

Colonization never ended, colonization continues in the present, and it happens with the complicity of the majority of white Creoles, of the majority of white mestizos and of the majority of brown mestizos who are indifferent to the suffering of the indigenous people and remain silent regarding this issue.

Even the name they gave to this continent of America is in honor of a colonizer named Américo Vespucio, and the countries on this continent are an invention of the white creoles, white mestizos and brown mestizos who harm the indigenous people.

Before colonization, countries did not exist on this continent.



Images recovered from the Internet

When the colonizers, regardless of whether they were Spanish, Portuguese, British, French or English, arrived on this continent, their objective was to force the indigenous people to abandon their beliefs and impose Christian religions on them, to submit to the kings of Europe, to steal their lands to the indigenous people, that the indigenous people accepted to be treated as inferiors and submit, to replace the majority of the indigenous people with whites and mestizos in the case of the countries that speak Spanish and Brazil that speaks Portuguese, and to replace the majority of indigenous people by white creoles in the case of the United States and Canada.

Unfortunately at present, the majority of indigenous people are of Christian religions and as part of the brainwashing that some indigenous people have suffered, they even believe that colonization was a good thing.

Also, the Christian neo-Nazis who deny the atrocities caused in colonization by speaking of the Black Legend, who accuse the hundreds of indigenous ethnic groups and all the indigenous people of each ethnic group that they were all cannibals, made human sacrifices, murdered children who They were born with some physical defect and of being rapists, while they cry and complain if someone says that all white people are bad and equal.

These nefarious genocidaires never say that the Bible God supports human slavery in both the Old Testament and the New Testament, that he supports a father selling his own daughter as a slave, that he orders children to be killed and pregnant women to be killed, and that he says that will make fathers and mothers become cannibals and devour their own children if they disobey him.

And if someone does not believe me that these atrocities are written in the Bible, I challenge them to look for these chapters and verses in their own Bibles so that they can prove it for themselves, and not to be a coward who only reads what suits their Christian beliefs.

But, suppose for a moment that the genocidal criminals were right and all the thousands of indigenous ethnic groups and all the indigenous people of each ethnic group of the past made human sacrifices, were cannibals, rapists and murdered children who were born with some physical defect (who were not It is true that all indigenous ethnic groups and all indigenous people of each ethnic group did that), in any case, the indigenous people of the present are not to blame for what the indigenous people of the past did and that does not justify the injustices suffered by the indigenous people of the present.

It is like the genocidaires and white supremacists of Argentina who, to justify the injustices suffered by the indigenous people of the Mapuche ethnic group in the present, affirm that the Mapuches of the past invaded the territories of other ethnic groups and exterminated other ethnic groups, even if that were true (which is not), the Mapuches of the present are not to blame for what other Mapuches did in the past and nothing justifies the injustices that the Mapuches suffer in the present.

In any case, the genocidaires and white supremacists of Argentina who claim this about the Mapuches are the same ones who descend from Spanish colonizers and Italian colonizers who caused massacres and atrocities against the indigenous ethnic groups of Argentina.

Unfortunately, the colonizers were often successful in making the indigenous people submit and feel inferior.

Many indigenous people only had the option of surrendering and accepting everything to survive because the indigenous people who did not accept converting to Christian religions, who did not accept being treated as inferiors and who did not accept submitting to the kings of Europe were tortured and murdered.

The colonizers brought weapons that the indigenous people did not have, metal shields that the indigenous people did not have, and hunting dogs that the indigenous people did not have.

But, even if the indigenous people surrendered, accepted everything, converted to Christianity, accepted being treated as inferiors and submitted to the kings of Europe, The European colonizers always tortured and killed them for pleasure to frighten others and dominate them more easily, to steal their lands, and then the mestizos continued doing the same until the present.

During the government of former Right-wing president Jair Bolsonaro in Brazil, this president promoted prejudice, hatred and genocide of indigenous ethnic groups.

During a conference before Zionist Jews, President Jair Bolsonaro said that there will not be a centimeter of land demarcated for indigenous people.

Both Jewish Zionism and Nazism and neo-Nazism are two different sides of the same coin.

Jair Bolsonaro met with the Right-wing deputy in Germany named Beatrix von Storch who is the granddaughter of a former Nazi finance minister during Hitler's Nazi regime.

Bolsonaro also appeared in photographs together with a candidate for councilor from his former party who dressed like Hitler.

The Nazis, like Bolsonaro, the political Right, liberals, neoliberals and neo-Nazis also believed in stupid conspiracy theories that made people believe that white people were victims of a conspiracy to reduce their population.

All this is evidence of how Jewish Zionism, neo-Nazism and fascism are different sides of the same coin, although these stupid ideologies in front of the people pretend to be enemies.

It is the same as how Freemasonry, New Age and Christian religions in front of people pretend to be enemies, but all the harmful beliefs are all different sides of the same coin.

The genocidal Jair Bolsonaro also proposed a law that allows mining and oil extraction in indigenous reserves.

Bolsonaro also said that it is a fallacy to say that the Amazons are a heritage of humanity and that the Amazons are not the lungs of the planet according to him, this is the same thing that Youtubers have said who support and justify the existence of these genocidaires like the Youtuber Spanish Dalas Review who also has another channel on YouTube called Dalas Sin Filtros.

During the presidency of Jair Bolsonaro in Brazil, the PM (Military Police) of Brazil, which is neo-Nazi and white supremacist, caused the massacre of indigenous people of the Guaraní Kaiowá ethnic group, whom they shot from helicopters.

These damn murderers of the PM went completely unpunished for these crimes even in the current Lula government.

The following is a photograph of an innocent indigenous person who has done no harm to these criminals and was murdered by these damned people just for defending his territory:

Photograph recovered from Instagram

The disastrous and sick society is complicit in all these crimes that are committed against indigenous people.

But criminals believe that we have to adapt to a rotten and sick society, they use the word maladjusted as if it were an offense when the real offense is being adapted to this disastrous society.

The Christian idea that the lives of criminals who murder indigenous people are worth the same as the lives of the innocent is something disastrous and a crime.

The crimes that are committed against indigenous people cannot be forgiven. The police and soldiers who do this should be sentenced to the death penalty.

The majority of white Creoles, white mestizos and brown mestizos are also complicit and guilty of these atrocities for voting for presidents, deputies and senators who allow and cause these atrocities to be committed against indigenous ethnic groups.

From the beginning of colonization to the present, the majority of those who harm indigenous people and murder indigenous people go unpunished, they never pay for their crimes and therefore have no forgiveness.

These damn criminals who attack and murder indigenous people have WhatsApp groups, pages on the Deep Web and even YouTubers and influencers who support or justify them.

And those of us who defend the indigenous people and defend their rights do not have the same. The fair thing would be to take revenge for the injustices and massacres that the indigenous people suffer at the present. These Christian teachings of loving your enemies, forgiving everything and turning the other cheek are disastrous.

The following photograph is of the murder of an indigenous child from the Guaraní-Kaiowá ethnic group who was run over by these criminals:

Photographs recovered from Instagram

The lives of criminals who commit these atrocities against indigenous children cannot be worth the same as the lives of the innocent. Considering that the lives of these criminals are worth the same as the lives of innocent people is a crime. And Christianity defends the life of criminals by saying that it is worth the same as the life of innocents.

All this proves that criminal companies, criminal businessmen, criminal governments and elites in power have always wanted to exterminate indigenous people and not white people.

But the criminal conservatives who invent disastrous conspiracy theories invented the Theory of the Great Replacement where they claim that there is a conspiracy to replace white people, and this disastrous theory has been promoted by libertarian and political Right-wing trash like Agustín Laje who are totally responsible and guilty for the genocide of indigenous people in the present.

Being peaceful with criminals who commit these atrocities or justify them like certain Youtubers and influencers is a crime. Criminals who do this or justify it deserve the death penalty and not for us to be peaceful with them.

It seems that, in Brazil, extermination and genocide are more concentrated in the indigenous ethnic groups that most preserve their ancestral beliefs in their gods and that take the most care of the environment, such as the Guaraní-Kaiowa and the Yanomami.

The majority of white Creoles, white mestizos and brown mestizos who are complicit in all of this by not caring and being indifferent should do the same to make them pay for these atrocities.

There should only exist those of us who are white mestizos, white Creoles and brown mestizos who do care about indigenous people, who do care about their rights, who denounce these injustices and do not remain silent about this.

But many mestizos are hypocrites who say they are proud of their indigenous roots and that they like indigenous crafts, but they do not care about the lives of indigenous people, they do not defend their rights and they do not denounce these atrocities that indigenous people suffer on their social networks.

Also, many mestizos disrespect the indigenous people by making them invisible, by saying that they conquered them and by becoming victims of the conquest, when that is making invisible the true victims who are the indigenous people and not the mestizos.

And these hypocritical mestizos say they are proud of their indigenous roots when their beliefs, ways of thinking and ways of being are the same as those of Europeans, and their concept of beauty revolves around whiteness and Europeanness.

The indigenous people are the true victims of colonization, those who suffered colonization and continue to suffer today because of it, and not the mestizos.

These photos are very sad and even more so because they are about an indigenous child who was murdered in a quite cruel way. But it is necessary to show these photographs, because they prove that the majority of humans are monsters for their indifference and for being complicit in this.

If someone had done this to a white child or had done this to a mixed-race child, the news would appear in the media such as television many times a day and for several days, many YouTubers and influencers would speak indignantly about the case and many people would demand justice by even marching.

But, since the victim was an indigenous child, the majority does not care about the life of this child.

The indifference of the majority of white Creoles, of the majority of white mestizos and of the majority of brown mestizos with the injustices suffered by indigenous people in the present, cannot be forgiven.

The true savages are the white Creoles, white mestizos and brown mestizos who harm indigenous people who have not done them any harm. The true savages are those cowards who harm indigenous children who cannot defend themselves.

A savage is not one who lives within nature, a savage is not one who protects nature. The savages are those who pollute excessively and destroy nature because of their ambition for money, as do many white Creoles, white mestizos and brown mestizos.

In Argentina, Dominga Arias, who was indigenous to the Wichi ethnic group, was raped by five criminals. Dominga Arias had her head beaten, stabbed her several times and her body was thrown into the Bermejo River.

If the victim had been a white woman or a mestizo woman who was raped, tortured and murdered, all of Argentina and the entire world would be asking for justice and asking that the criminals be punished severely.

But, since the victim is an indigenous woman, the majority does not care and that is why the majority is an accomplice.

In Argentina, the indigenous people of the Wichi ethnic group, the Mapuche ethnic group, the Guaraní ethnic group and other ethnic groups also suffer persecution by the racist and genocidal State of Argentina, they suffer the invasion of their territories, the expulsion from their territories to benefit to criminal enterprises, suffer attacks by the police, torture, rape and murder.

Photograph recovered from Instagram

If an indigenous person commits a crime, the majority use that to say that all indigenous people are bad and equal, and they make racist and derogatory comments to refer to the indigenous people, to generalize them and put them all in the same bag.

But when a white or a mestizo commits a crime, no one uses this to say that all whites and all mestizos are bad and equal, No one makes racist and derogatory comments about whites and mestizos, no one generalizes and puts all whites and all mestizos in the same bag for that reason.

It's the same with blacks, although blacks are treated a little better than indigenous people, there is still a lot of racism with blacks.

When a black person commits a crime, many conservative racists use this to say that all black people are bad and equal, make racist comments about black people, and claim that all black people are drug addicts or that all black people are in gangs.

But, when it is a white or a mestizo who commits crimes, who is a drug addict or who is involved in gangs, no one says that all whites and all mestizos are bad and equal, no one says that all whites and mestizos They are drug addicts and they are in gangs.

But, white people and mixed race people love to pretend to be victims, talk about reverse racism when they are criticized, and talk about the stupid Great Replacement conspiracy theory that says elites want to exterminate white people when it is a lie because there has never been an extermination of whites and there has never been an attempt to reduce the population of whites.

When whites and mestizos never suffered everything that blacks suffered with slavery and everything that blacks suffered with racism, and when whites and mestizos never suffered everything that indigenous people have suffered since the beginning of colonization and who continue to suffer in the present.

And the only ones who continue to be exterminated and massacred by criminal companies, by criminal businessmen, by illegal miners, by ranchers who raise bulls, sheep, goats and cows, by illegal loggers, by politicians, by the police and by the military are the indigenous people.

The fact that a white person suffers some type of discrimination or prejudice in no way affects their privileges because white people have never suffered everything that indigenous people suffer and will never suffer everything that indigenous people continue to suffer in the present.

Therefore, it is absurd to defend white people, white people do not need to be defended because they have privileges and all their rights are guaranteed by law.

The only white people who deserve to be defended are the white people who defend the indigenous, who defend their rights and who are against racism.

White people who do not defend indigenous people, who do not defend indigenous rights and who do not fight against racism are complicit and guilty for everything that indigenous people suffer and for racism.

When whites and mestizos defend their territories, their rights and their lives, they are never considered criminals for that reason.

On the other hand, when it is the indigenous people who defend their territories, who defend their rights and who defend their lives, if they are considered criminals by the State and by the media such as television and others.

Whites and mestizos call for pollution and the destruction of the environment to lead to progress and advancement, and place money and technology above the lives of indigenous people and the environment.

Photographs recovered from the Internet

While they call those who take care of the forests, those who live surrounded by nature, those who take care of the rivers and take care of the wild areas of savages, uncivilized and backward.

Photographs recovered from the Internet

They treat the indigenous people as ignorant. When in reality what is ignorant is what whites and mestizos do, polluting the air, knowing that air pollution causes diseases and knowing that we need clean air to be healthy.

They treat the indigenous people as ignorant. When in reality the ignorant thing is to contaminate the water, knowing that water contamination also causes diseases and knowing that we need clean water to live.

They call the indigenous people ignorant. When in reality what is ignorant is what the whites and the mestizos do, destroying the forests and polluting the sea, knowing that the trees in the forest, the vegetation in the forest and the microorganisms in the sea are what produce the oxygen we need to live.

Since there are very few white mestizos, white Creoles and brown mestizos who do care about indigenous people and the environment, that is why there are few whites and mestizos who are good. Most white people and most mixed race people are bad.

With this I do not mean that money and technology are bad, what is bad is placing money and technology above indigenous people and above the environment.

It is the political Right, neoliberal socialism, libertarians, neoliberals, neo-Nazis and colonialist environmentalism represented by WWF and Elon Musk who always place money and technology above indigenous peoples and the environment.

The solutions offered by whites and mestizos to protect the environment are not correct. The correct solution to protect the environment is indigenous ethnic groups and their protection.

Also African ethnic groups made up of black people from Africa such as the Baka, the Bushmen, the Pygmies, the Ashanti, the Akan and others protect the environment. These African ethnic groups are also indigenous because indigenous means native and these ethnic groups are native to Africa.

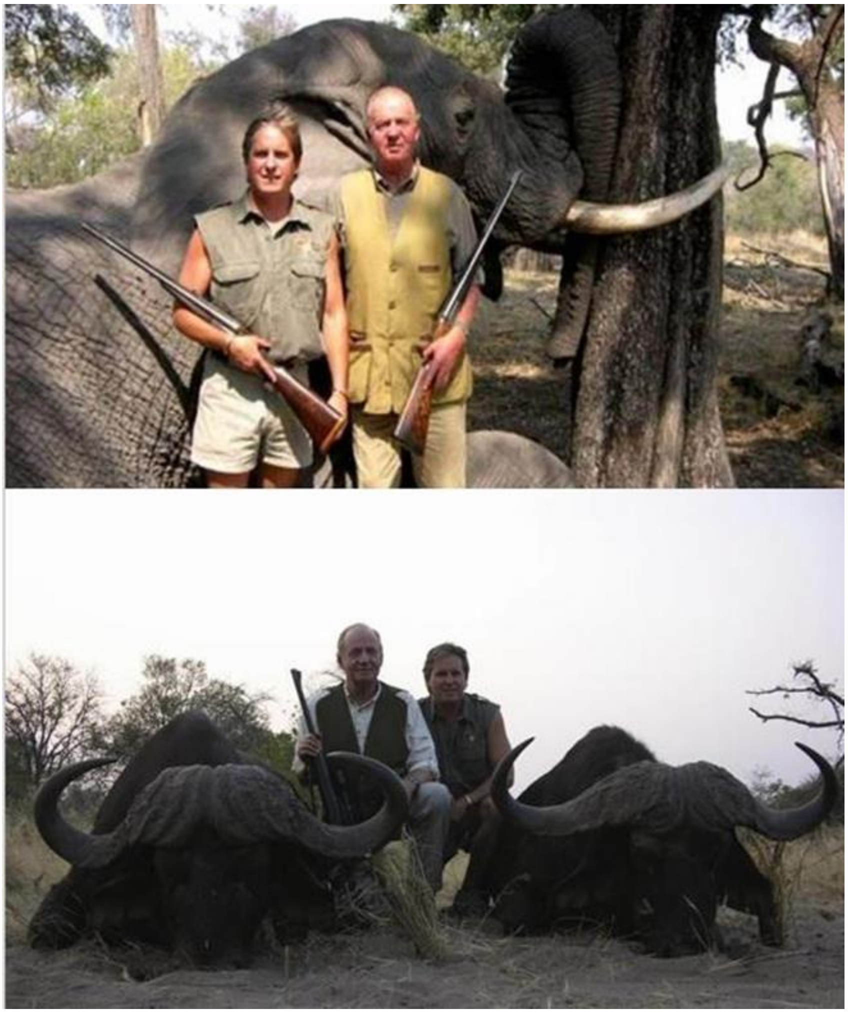
Indigenous comes from the Latin inde (from there) and gena (born of), meaning that the word indigenous is correct because it means native. What is not correct is to use the word Indian since from the past to the present it has been used in a derogatory and contemptuous tone.

Photographs recovered from the Internet

But, some black owners of oil companies and other companies are accomplices of the WWF forest guards who cause the murder of blacks of these ethnic groups.

King Juan Carlos I, who went to hunt animals for pleasure in Africa such as elephants and bison, was honorary president of the WWF.

After many pressures from animal and environmental organizations for the WWF to take away the honorary presidency from King Juan Carlos, the WWF organization decided to take away the honorary presidency, but if these pressures had not occurred, King Juan Carlos would still be the honorary president of the WWF.



Photographs recovered from the Internet

WWF was founded by white people who hunted for pleasure like Bernard of Lippe-Biesterfeld, and by eugenicists like Julian Huxley who claimed that white people were superior and wanted the extermination or sterilization of other ethnic groups.

While these environmental organizations want to prohibit the indigenous ethnic groups of this continent and the ethnic groups of Africa from hunting to survive, in the case of whites and mestizos they are allowed to hunt for pure pleasure without it being a necessity to survive.

Photographs recovered from the Internet

WWF also defends animal testing, stating that it is necessary to test the effect of chemicals on the environment. WWF was also denounced for covering up and causing harassment, rape, beatings, torture and murder of black people from indigenous ethnic groups living in Cameroon, the Republic of the Congo and the Central African Republic by the organization Survival International.

The following photograph and text is taken from the Survival website:

Environmentalists defend the extermination of animals like cats, stating that they are invasive species that are displacing wild animals, But, the whites and the mestizos that they displace and cause the extermination of indigenous people on this continent and ethnic groups in Africa are never considered invasive species.

Conservatives in their evil speak of the Crystal Generation to attack and discredit the struggles against injustice. But, that Crystal Generation does not exist.

The generation of the present is just as selfish, insensitive and cruel as the generation of the past. The generation of the present lacks humanity and lacks empathy for the pain of others just like the generation of the past. The glass generation is just a myth invented by conservatives.

The generation of the present continues to believe that this evil and cowardice of harming the weakest, of harming the most vulnerable and harming those who do not harm them is strength, bravery or power just like the generation of the past.

The generation of the present is just as perverse as the generation of the past, but since the majority is ignorant and they love to pose as innocent victims, even if they are not, that is why the majority listen and hear from Youtubers and Influencers who support the Right, they believe in conspiracy theories created by conservatives and find them entertaining, and they repeat the lie that there is a Crystal generation.

The indigenous leader Eduardo Mendúa was murdered by hitmen in Ecuador. Since the genocidal right-wing criminal named Guillermo Lasso is president of Ecuador, indigenous people in Ecuador are suffering massacres.

Photograph recovered from the Internet

The police and military of Ecuador, following the orders of the damned genocidal colonizer called Guillermo Lasso, are humiliating, mistreating, torturing and murdering indigenous people who come out to protest for their rights.

Even if Rafael Correa became president in Ecuador again, it is most likely that the damned Guillermo Lasso, his accomplices like Fernando Balda, the damned police and military who caused these massacres of indigenous people will never pay for these crimes.

Just like Jair Bolsonaro and his children in Brazil, Jeanine Áñez and her accomplices in Bolivia, Ivan Duque in Colombia, the police and military in these countries who have massacred indigenous people, They have never paid as hard as they deserve for the massacres of indigenous people, even though there has been a change to Leftist governments.

The following photographs are of the massacres of indigenous people protesting, massacres that occurred in Ecuador and caused by the criminal government of Guillermo Lasso:

Photographs recovered from the Internet

The media such as television in Ecuador, as well as the media in all the countries of this continent, refuse to show the injustices and massacres suffered by the indigenous people of all these countries.

For this reason, the media are complicit and guilty of all this, in addition, the garbage of the media such as television and others treats the indigenous people as criminals and terrorists for defending their rights.

Thanks to brave people who publish these photos and videos, we have all this proof that these atrocities against indigenous people continue to occur in the present with the complicity of a majority that is indifferent, selfish and insensitive to the suffering of others.

The governments that cause these atrocities, in addition to being genocidal, colonizing and murdering, are also cowards because they hide these crimes that they commit.

Fernando Balda is a criminal from Ecuador, a close and personal friend of President Guillermo Lasso. This nefarious and perverse being has made racist comments regarding the indigenous people. One of his comments was: -These Indians are the racists, not us; They are the ones who live 530 years in resistance, they discriminate against those of us who are not of pure blood. And we are the ones who have put up with them for 530 years: lousy, stinking of rook and on top of that terrorists. (With few exceptions).

For criminal scum like Fernando Balda who were born in a cradle of gold because they have never suffered needs, were born with many privileges and support the murder of indigenous people: that the indigenous people denounce that they suffer discrimination, invasion of territory, contempt, torture, rape, theft of their lands and murders by whites and by mestizos is racism according to its stupidity.

For shits like Fernando Balda, the fact that indigenous people defend their lives, defend their rights, defend their territories, denounce that they suffer from hunger, denounce that they suffer from a lack of medical care and denounce that they live in extreme poverty is racism according to their evil and stupidity.

That is to say, according to those scoundrels like Fernando Balda, indigenous people have to accept being treated as inferiors, being dominated, subjugated, accepting that they are harmed and accepting that injustices are committed against them so that they are not racist.

These racists like Fernando Balda call indigenous people stinky, when the custom of bathing every day comes from the indigenous people, and the custom of brushing your teeth also comes from indigenous cultures. When we see what the teeth of the indigenous people are like, the majority keep their white teeth.

Victims always play victims. Racists, neo-Nazis and white supremacists like Fernando Balda always believe that their victims are racists.

Another thing that these genocidal criminals say is that according to them, defending the indigenous people is dividing. The degree of stupidity of these criminals is such that they affirm that denouncing the oppression, racism, contempt, discrimination, injustices and massacres suffered by indigenous people, according to them, is dividing the population.

That is to say, for these stupid criminals, not dividing is being complicit in all the injustices and all the atrocities that the indigenous people suffer in the present.

And the other stupid thing they say is that indigenous people want privileges when indigenous people have never had privileges, indigenous people have always suffered oppression. It is the whites and the mestizos who always have privileges, while the indigenous continue to suffer.

Also, another stupid thing that these genocidal criminals say is that according to them, if we descend from the European colonizers, it means that we have to support all the atrocities they committed against the indigenous people and support the injustices suffered by the indigenous people of the present, this is just as stupid for someone to say that if we had an ancestor who committed rape we have to support him committing rape.

The European colonizers were the ones who brought animals such as cows, bulls and pigs to this continent; before colonization these animals did not exist on this continent. There were only buffaloes in the United States and Canada, and llamas, vicuñas and alpacas in the Andes.

Cows and bulls are animals that, having a larger digestive system than humans and larger than other animals, generate large emissions of methane and excess carbon dioxide through their gases and excrement, which generates a lot of pollution and increases the problem of climate change.

To make pastures with grasslands so that cows and bulls can graze, many hectares of forest are destroyed, many wild areas are destroyed and many trees are cut down to be able to plant grasses in those spaces.

Although, the natives (indigenous people of the United States and Canada) hunted buffaloes to survive (and not for pleasure). The natives never destroyed forests and never destroyed wild areas to make pastures for buffalo. Buffaloes simply lived on the plains that existed naturally.

The same was with the indigenous ethnic groups of the Andes, they hunted llamas, vicuñas and alpacas to survive (and not for pleasure). The indigenous ethnic groups of the Andes never destroyed forests and never destroyed wild areas to make pastures for llamas, vicuñas and alpacas. Llamas, vicuñas and alpacas lived on the plains that existed naturally.

Whites and mestizos keep cows, bulls and pigs locked up in small spaces and in pastures. The natives of the United States and Canada never kept buffaloes confined in small spaces and in pastures, and the indigenous ethnic groups of the Andes never kept llamas, vicuñas and alpacas in small spaces and in pastures.

Whites and mestizos brand cows, bulls and pigs with boiling iron. The natives of the United States and Canada never branded buffaloes with boiling iron, and the indigenous ethnic groups of the Andes never branded llamas, vicuñas and alpacas with boiling iron.

Whites and mestizos have slaughterhouses where they kill cows, bulls and pigs. The indigenous people hunted animals that were free and only hunted what was necessary to survive when plant foods were scarce.

Whites and mestizos artificially inseminate (rape) cows. The natives of the United States never artificially inseminated buffaloes, and the indigenous ethnic groups of the Andes never artificially inseminated llamas, vicuñas and alpacas.

In Mexico, pig farms that raise pigs are contaminating with excrement and blood the cenotes and springs that are sacred to the indigenous Mayan ethnic groups that live in Yucatan.

Much of the destruction of the Amazons and the murder of indigenous people living in the Amazons is caused by cow and bull farming. Most of the soybean cultivation that also causes the destruction of the Amazons, the expulsion of indigenous people from their territories and the murder of indigenous people is also used to manufacture feed for cows, bulls and pigs.

Photographs recovered from the Internet

But this is what most people call being civilized and progress. The cowboys in the United States were the ones who killed the most indigenous people and exterminated the buffalo the most with the aim of using these plains where the natives and buffalo lived to raise bulls and cows, and replace the natives (indigenous) and the buffaloes with cows and bulls that generate large amounts of money.

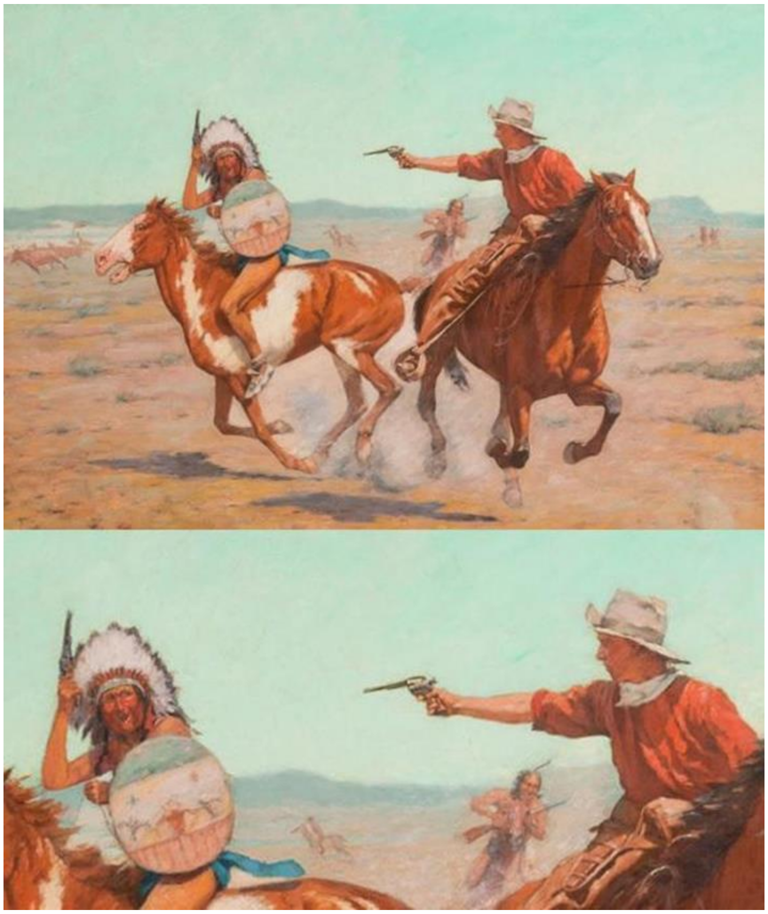

Image recovered from the Internet

At present, in Argentina, ranchers who raise bulls and cows have invaded and deforested indigenous territories in the Chaco. And the international Survival organization denounced in 2012 that there is a livestock agenda to steal indigenous territories in Paraguay.

In Costa Rica, the whites and the mestizos who have invaded indigenous territory in Salitre and Cabagra of Buenos Aires de Puntarenas, have also used the invaded indigenous territories for cattle and bull breeding.

Unfortunately in Costa Rica and other countries on this continent, plant food agriculture does not provide enough money to satisfy the basic needs of food and health care, The criminal governments of these countries always seek to harm the plant food farmer, while cow and bull farming has great economic benefits and is considered development.

This has even led some indigenous people to dedicate themselves to raising cows, bulls and pigs to survive, and to avoid suffering the extreme poverty that the majority of indigenous people suffer. It is true that some indigenous people have money and there are a few indigenous people who are millionaires, but the majority of indigenous people live in extreme poverty.

For all these reasons, the consumption of milk, dairy products, leather and meat from bulls, calves, cows, sheep, goats and pigs is something that harms the environment and causes damage to many indigenous ethnic groups. And the consumption of soy also harms the environment and indigenous ethnic groups that live in the Amazon.

Whoever consumes milk and dairy derivatives from cows, soy and meat from cows, calves, bulls, goats, sheep, lambs and pigs is complicit and guilty of the murder of indigenous people, the invasion of indigenous territories, of pollution and destruction of the environment.

The criminals say that, if cows, bulls and pigs stop reproducing, and if bullfighting ends, that means the extinction of these animals because no one reproduces them, but the fact is that the extinction of these animals does not harm the environment in any way and the fact that they do not exist does nothing to affect those animals, since they are only forced to exist to come and suffer.

That animals such as bulls, cows and pigs stop being reproduced is something that benefits the environment, that benefits indigenous ethnic groups and that benefits those same animals because then they are not born just to come and suffer.

Environmentalists always refer to cats as invasive species, but bulls, cows, sheep, goats and pigs are not considered invasive species, even though they cause pollution and destruction of the environment, and destruction of native ecosystems.

Mining also generates murders of indigenous people and invasion of their territories, therefore, it is an ethical and moral duty of those who buy gold, metals and precious stones to demand and ensure that the extraction of said gold, metals and precious stones does not cause murders of indigenous people and does not cause invasion of indigenous territories.

In the United States, a 27-year-old Navajo indigenous woman named Pepita Redhair disappeared on March 24, 2020.

In the United States, the Dakota Access pipeline has also caused invasion of Native American (indigenous) territory and destruction of drinking water sources. The Sioux Indigenous who protest against this pipeline are also treated as criminals by the police and are oppressed by the police.

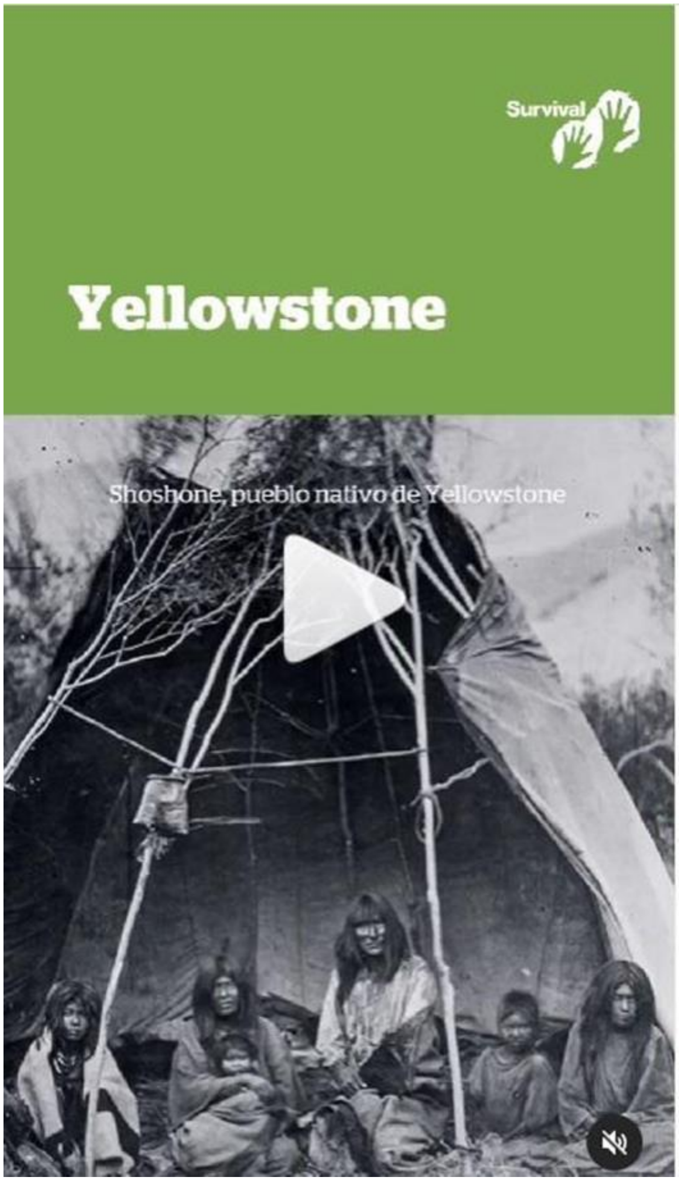
The following is a reflection from the organization Survival International, I share it because of its importance:

Have you ever thought about the concept of virgin land?

Any conception of virgin land, as pristine nature, alien to all human intervention, is a colonial myth: these territories are narrated as empty to justify their occupation.

The idea of virgin land originated in the United States in the 19th century by denying the vital role of native people in shaping, over millennia, their landscapes, replacing it with the idea that nature (and God) created the landscapes that they white settlers were to protect.

This Western illusion is racist and seeks to make invisible the role of Indigenous Peoples in the care and management of their territories, the most biodiverse regions in the world..



Capture recovered from Instagram

The god of the Abrahamic religions (Jewish, Christian and Islamic) whose belief was brought to this continent and the continent of Africa by the colonizers says in his word that he created the earth for humans to dominate, subjugate, dominate or subjugate it, that he only created humans in his image and likeness, and that it is not nature.

Genesis chapter 1, verse 28: God blessed them and said to them: Be fruitful and multiply. Fill the earth and subdue it.

Genesis chapter 1, verse 26: And God said, Let us make man in our image, according to our likeness.

The belief in the god of Abrahamic religions is very different from the belief in a Creator of indigenous cultures.

In the indigenous ethnic groups, their creator god of everything that exists and of the universe, called Great Spirit, Sibu, Ñamandhu, Taiowa or any other depending on the ethnic group, orders the protection of nature, while the biblical god orders that the being human dominates or subjugates nature is ordering that nature be exploited, polluted and destroyed.

Abrahamic religions believe that only humans have souls because according to their beliefs, only humans were created in the image and likeness of that god.

On the other hand, indigenous ethnic groups, although they hunt to survive and fish to survive, are animists, that is, they believe that everything that exists has a soul or a spirit.

Abrahamic religions believe that their creator god is separate from nature, that their god is not nature, and they consider it blasphemous or heretical to believe that nature is the same as their god.

The indigenous ethnic groups are pantheistic, that is, they believe that their Creator god (called Great Spirit, Sibu, Ñamandhu, Taiowa or any other depending on the ethnic group) lives within nature and is one with nature, and that their other gods and spirits live within nature and represent forces of nature.

The Creator god and the other gods that the different indigenous ethnic groups believe in, which are thousands of different ethnic groups, never supported human slavery, they never supported a father selling his own daughter as a slave, and they never ordered the murder of children and pregnant women of conquered peoples.

But always, when criminals cite a biblical chapter and biblical verses that suit them, such as the story of Adam and Eve, the story of Noah's boat, and the part about the birth, life and miracles of Jesus Christ, they never say that they are metaphors, never They say they are symbolic and never say they are taken out of context, even if they quote only one verse.

But the parts where that god supports a father selling his own daughter into slavery, where he supports human slavery in both the Old Testament and the New Testament, and where that god orders the killing of children and pregnant women always say that they are symbolic, metaphorical or taken out of context.

On the Asian continent, indigenous ethnic groups also suffer invasion of territories, murders, rapes and torture.

In 2012, a twelve-year-old Chakma girl in Bangladesh was raped and murdered by a settler.

Photograph recovered from the Internet

Rina Dewan, from the Hill Women's Federation organization, denounced that: -The settlers continue to commit rapes with impunity; Not a single rapist has ended up in court, the main factor that contributes to the continued repetition of this horrible crime.

Stephen Corry of Survival International also charged that: -Instead of worrying about whether ministers might accidentally use the term indigenous, the Bangladesh government should be taking steps to ensure that Jumma women and girls are safe from rape and murder. The practice of not prosecuting those responsible for these atrocities is scandalous: it is time for the Government to organize its priorities and respect the rights of the Jummas.

Pratima Chakma was an indigenous Asian woman who was raped and murdered. Mong Nuching Marma was a five-year-old indigenous boy who was also murdered.

In India, the indigenous people of the Dongria Kondh ethnic group also suffer invasion of territories and injustices that most of the time go unpunished. The company Vedanta Resources is one of the causes of these injustices.

Colonialist environmentalism is also the cause of the massacre and genocide of indigenous people, for example, Elon Musk's criminal is totally related to Jair Bolsonaro.

Elon Musk's project to bring broadband internet to the Amazons only benefited the illegal miners who cause rape and murder of indigenous people, and who poison the water of the rivers where the indigenous ethnic groups bathe and drink water with mercury, causing the poisoning of the indigenous people.

Therefore, whoever finances or who buys any product from Elon Musk's companies is completely complicit and guilty of the genocide and the massacres of indigenous people, and also, I call on everyone to delete their Twitter accounts.

In Nicaragua, a part of the brown mestizos have indigenous features such as dark skin, black hair and slightly slanted eyes. But, some of these dark-skinned mestizos with indigenous features also discriminate and despise indigenous people.

Some of these brown mestizos from Nicaragua feel more descended from white Europeans than from indigenous people, and they also affirm that mestizaje is about improving the race.

When someone affirms that miscegenation means improving the race, they are encouraging and promoting hatred and contempt towards indigenous people.

In Mexico and Guatemala, there are also dark-skinned mestizos who believe that miscegenation is improving the race because according to them it serves to whiten the new generations, and these dark-skinned mestizos also humiliate, mistreat, despise and discriminate against indigenous people.

Many presidents of Mexico and Guatemala who caused the massacre of indigenous people also promoted miscegenation as a way of whitening the following generations and imposing Christianity on the following generations.

Miscegenation is a form of extermination of indigenous ethnic groups because through this miscegenation we seek to whiten the following generations and evangelize the following generations more effectively.

Costa Rica, like Argentina and the United States, is a white supremacist and very racist country. In Costa Rica, when a dark-skinned mestizo with indigenous features like some Nicaraguans commits a crime, this is used to generalize and put all Nicaraguans in the same bag, and to affirm that they are all bad and equal.

But, when it is a Tico (which is a way of calling those who are from Costa Rica) with more European features because most of the physical features of a large part of the Ticos are more European due to their white skin and pointed nose, who commits a crime such as assault, robbery, rape or murder, no one claims that all white Ticos are bad because of this, no one claims that all Ticos are equal because of this, no one generalizes and no one puts all white Ticos in the same bag because this.

It is the same in the Nazi country created with the extermination of the natives, white supremacist and racist to which the European colonizers gave the name of the United States, when a black or Mexican with indigenous features commits a crime, this is used to affirm that all blacks and that all Mexicans are bad and equal, and it is generalized and all Mexicans and blacks are put in the same bag for that reason.

But, when it is white neo-Nazis who support Donald Trump, conservatives and Christians who commit crimes such as rape, torture and murder, no one uses this to say that all white people in the United States are bad and equal, no one uses this to generalize and put all white Americans in the same bag.

Julio Otero Fernández was a Nicaraguan boy who was eaten by a crocodile in Costa Rica. Julito's father named Julio Rubén Otero and his mother named Margine Fernández Flores came to Costa Rica in search of better economic opportunities.

Regarding what this child suffered, a white Tico named Bryan Porras made this comment on social networks: - He didn't have to be doing anything in Costa Rica, let all the Nicaraguans leave, here in Costa Rica they are not wanted, get in the way.

I was the only one who reacted with indignation and anger at this comment, the majority who when they read this comment stayed silent, did not react with indignation and did not react with anger are accomplices of this racist and white supremacist named Bryan Porras.

If it had been a white Costa Rican child, the one who was eaten by a crocodile and someone made a comment like Bryan Porras, everyone would be insulting and reacting with the angry emoji to the person who made that comment, everyone would be outraged and with anger at that comment.

The majority of white Ticos, being racist and xenophobic, cannot be forgiven. In Costa Rica, indigenous ethnic groups such as the Bribri, the Cabécar and others also suffer racism, discrimination and contempt, and the indigenous people who defend their territories from the whites and mestizos who invade their territories are also treated as criminals by President Rodrigo Chaves , by the state, by television channels such as Teletica or Repretel, by the municipality and by the police officers who are close to those territories.

In Costa Rica there is racism and contempt against Nicaraguans with more indigenous traits. Nicaraguans who come to work in the fields, in coffee crops, in sugar cane crops and in other rural crops because the majority of white Ticos do not like to farm and they do not like to work in the fields.

Fernando Báez Sosa was a dark-skinned mestizo from Argentina with more indigenous features such as dark skin, black hair and slightly slanted or almond-shaped eyes, who was brutally beaten and kicked to death in Argentina.

Photographs recovered from the Internet

As for the murderers of Fernando Báez Sosa, when you see the photos of these criminals you see the evil in their faces, in their gestures and facial expressions. It's the same as when I see photos of religious fanatics and politicians who cause harm to indigenous people, I always see evil in their faces, in their gestures and facial expressions.

The following are photographs of the murderers of Fernando Báez Sosa:

Therefore, I am totally convinced that these monsters are born with evil in their genetics. The worst and most serious thing is that these monsters are the ones who reproduce the most and have children, to the misfortune of the planet.

I think that this idea that these monsters have of harming those they consider inferior, those they consider weaker or those they consider more vulnerable, according to them, is power, strength or bravery (garbage ideology of machismo), it is something that these monsters are born with.

There was also a portion of people who were outraged by the murder of Fernando Báez Sosa, which is hypocritical because they are outraged by this case, but they themselves foster and promote the sexist idea that this cowardice and evil of harming the most defenseless, the weak, to those who do not harm them or the most vulnerable is power, bravery or strength according to their stupid sexist ideology.

Hypocrites because they are outraged by this case, but they feel superior for being white, for descending from Spaniards and Italians, when that thought was precisely what caused the racist murder of Fernando Báez Sosa.

Hypocrites because those Christian teachings seem good to them that the life of criminals is worth the same as the life of innocents, of forgiving everything, of turning the other cheek, of loving one's enemies and to forgive force as an obligation that only favors criminals like those who murdered Fernando Báez Sosa and the criminals who commit atrocities against indigenous ethnic groups in the present.

The case of the murder of Fernando Báez Sosa in Argentina and the racist comments by the Nicaraguan boy Julio Otero Fernández who was eaten by a crocodile in Costa Rica are proof of how the lives of mestizos with indigenous features are in danger in white supremacist and racist countries like Costa Rica and Argentina.

Juan Vázquez de Coronado was one of the colonizers who founded Costa Rica.

A phrase said by this colonizer with respect to the chief Garabito was: - The most harmful to the pacification of this province is a chief named Garabito who in the beginning gave the recognition he owed to Your Majesty and to Mr. Cavallón, in the name of Your Majesty, and then he rebelled; and is not content with having sacrificed a soldier who arrested Mr. Cavallón and having gone out to kill him with armed hands and having made other insults, but he exhorts and even threatens all the others not to give the obedience that they owe to Your Your Majesty, do not even recognize God our Lord. This is how I have prosecuted him: he is condemned to death and to war against him as a person who has rebelled.

Many times the criminals who speak of the Black Legend to deny the atrocities committed by the colonizers, just as they speak of the Holotale to deny the atrocities committed by Hitler and the Nazis, deny that the indigenous people who did not convert to Christianity and did not submit to the will of the kings of Europe were to be tortured and murdered.

But, in their statements, the colonizers accepted that when the indigenous people did not convert to Christianity and did not submit to the will of the kings of Europe, they were sentenced to the death penalty, but they were tortured and murdered.

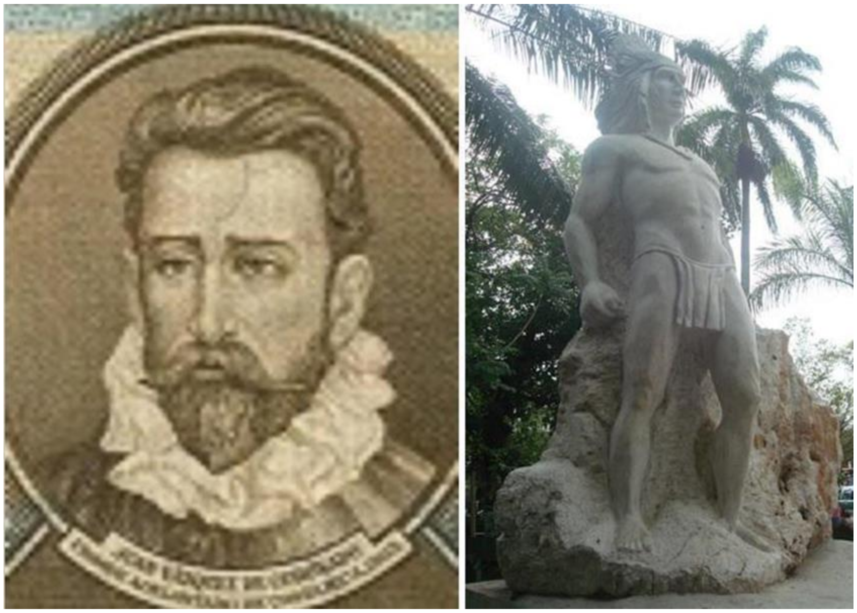

Image and photographs recovered from the Internet

The chief of the Taíno ethnic group called Hatuey before being burned alive at the stake by the Spanish said: - This is the God that the Spanish worship. For this they fight and kill; This is why they persecute us and this is why we have to throw them into the sea. These tyrants tell us that they worship a God of peace and equality, but they usurp our lands and make us their slaves. They tell us about an immortal soul and its eternal rewards and punishments, but they steal our belongings, seduce our women, rape our daughters. Unable to match us in courage, these cowards cover themselves with iron that our weapons cannot break.

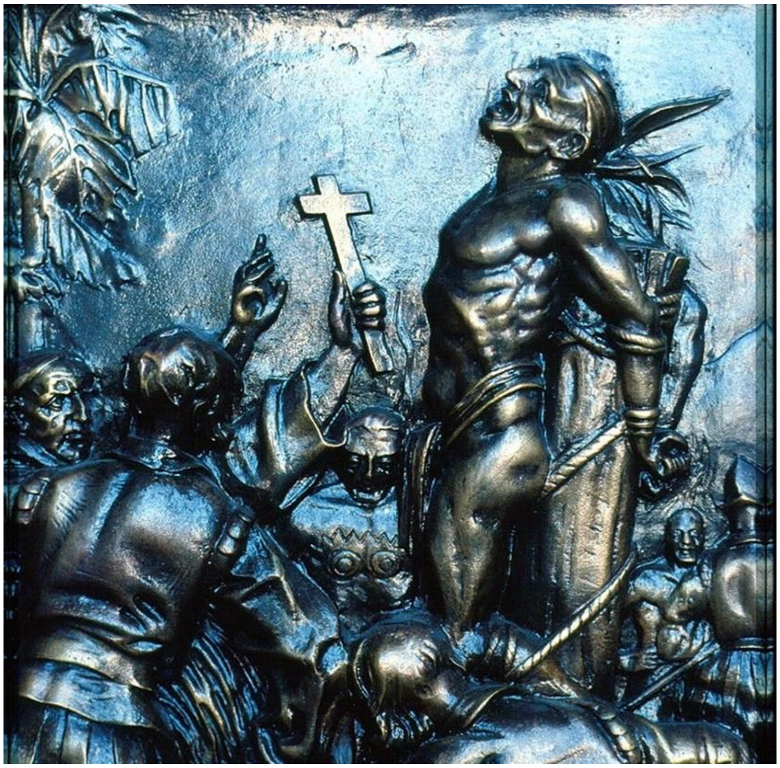

Image recovered from the Internet

The indigenous people of the Taíno ethnic group never practiced human sacrifice, they never practiced cannibalism and they never murdered children who were born with any physical defect, and they were completely exterminated by the Spanish colonizers.

The indigenous people of the Bribri and Maleku ethnic groups in Costa Rica, the indigenous people of the Miskito ethnic group in Nicaragua and Honduras, and the indigenous people of the Guajajara, Waujá, Kalapalo, Kuikuro and Trumai ethnic groups in Brazil, never practiced cannibalism and They never murdered children who were born with any physical defect, and they also suffered a lot from colonization, Christianity and submission to the kings of Europe were also imposed on them, and they suffered atrocities from the Spanish colonizers and the Portuguese colonizers.

That is why, whoever watches the videos of trash Youtubers like Agustín Laje and Danann who celebrate the colonization of this continent, talk about the Black Legend to deny the atrocities committed in the conquest, and downplay what the indigenous people suffer in the Present, those who subscribe to these channels, read and buy the books of these characters are complicit and equally guilty of all the atrocities suffered by indigenous people from the beginning of colonization to the present.

Youth With a Mission is a Christian fundamentalist organization in the United States. This organization produced a film called Hakani where they claim that the indigenous ethnic groups of the Amazons bury children alive.

According to Stephen Corry of Survival International, Hakari is a farce and even the missionaries who produced this garbage film accept that there is no way to prove that this happened, in addition the Hakari film generates hatred towards indigenous ethnic groups and that criminals support the extermination of indigenous people justifying themselves with false information.

Right-wing criminals from Argentina, liberals and conservatives, have promoted hatred of the Mapuches with comments such as the following:

Ramiro Marra wrote on Twitter: - To the Mapuches, not even a tree should be given.

Francisco J. Revoredo wrote on Twitter: - Bala.

Facebook and Twitter have censored me many times. But, these criminals who write hateful comments against indigenous ethnic groups and even ask that they be murdered, Facebook and Twitter do not censor their accounts, which is why Facebook and Twitter are complicit in the genocide and the massacres of indigenous people.

These criminals are the same garbage that is against abortion, and who defend zygotes and embryos that scientifically do not feel because they do not have a formed nervous system, while they promote hatred against human lives that do feel like the indigenous people and want their extermination.

Cigoto y embrión.

Photographs recovered from the Internet

These criminals also claim that the Mapuche came from Chile and that they exterminated other ethnic groups such as the Tehuelches, and that is why, according to them, the Mapuche of the present are to blame for what the Mapuche of the past supposedly did.

While these genocidaires who make these comments are descendants of Spaniards and Italians, and believe they are superior for that reason, they are descended from Spaniards and Italians who did cause extermination and genocide of the indigenous ethnic groups in Argentina.

So, if for them, the Mapuches of the present have to pay for what the Mapuches of the past did, these trash who make these comments should pay for the genocide and the massacres committed by their Spanish and Italian ancestors against the indigenous ethnic groups of Argentina.

Following the logic of these criminals who make hateful comments against the Mapuches and calling for their murder, these criminals, because they descend from Spaniards and Italians who exterminated indigenous people, deserve to be sentenced to death for what their colonizing ancestors did.

And I ask that, if one day there is a government in Argentina that reads my writings and supports me, please persecute the criminals who make these comments on Twitter and Facebook, and please sentence them to the death penalty, ordered in the name of all the indigenous people murdered by the Spanish and Italian ancestors of the scum who write these comments.

On the other hand, these clowns write and speak as if Argentina and Chile existed before colonization, when the countries Argentina, Chile and other countries on this continent are a colonial invention.

Before colonization, the different indigenous ethnic groups did have their separate territories, but the concept of countries and borders did not exist, that concept of countries and borders was brought by the colonizers.

This continent should not be called America, since America was a name given by the colonizers in honor of a conqueror. This continent should be called Abya Yala, which was the name given to this continent by the Guna ethnic group from Panama and Colombia. And this continent should be one country.

The Spanish and Italian colonizers from whom garbage such as Ramiro Marra, Francisco J Revoredo, Nicolás Tarlao, Silent, FeFeLip, Gonzalo Zeta, Jonatan Ortiz, Fernan, Caterina Mercante, ines patiño, Cryptoamateur, Ale, Santiago, Franco Amicantonio and others descend the extermination and genocide of many indigenous ethnic groups.

Among the ethnic groups against which the Spanish and Italian colonizers who founded Argentina committed genocide are: the Selknam, the Qom, the Moqoit and many others who suffered massacres by the Spanish and Italian colonizers to steal their lands, and thus found the state racist and white supremacist from Argentina.

The Argentines who make these hateful comments against indigenous peoples are mostly conservatives, Right-wing, Libertarian and Neoliberal. That is why conservatives, the Right, Libertarians and Neoliberals are the same thing, they are garbage, neo-Nazi and white supremacist ideology presented in a disguised way.

The deputy Zeca of the PT in Brazil made statements that incite genocide, when criticizing the fight of the Guaraní Kaoiwa to recover their territories in Laranjeira Nhanderu.

That is why, before voting for left-wing deputies like Zeca, whites and mestizos must ensure that the priority of these deputies is the defense of indigenous people and their rights, otherwise, if they do not ensure that They are deputies who defend indigenous people and their rights, they are complicit and guilty of all the injustices suffered by indigenous people.

The indigenous people and their rights must always be the priority in all the countries of this continent because the indigenous people were on this continent before the whites and before the mestizos, and indigenous people have suffered much oppression and injustice from the beginning of colonization to the present.

What's more, in all the countries of this continent that should be called Abya Yala: there should only be Left parties where all the deputies, senators, ministers and presidents are indigenous in order to return the countries of this continent to their true owners who are the indigenous people for having arrived on this continent before the white Europeans and being on this continent before the mestizos.

And little by little make all the countries founded by the colonizers of Abya Yala unite into a single country named Abya Yala, where the territories that were previously countries become provinces and where the names of each place are changed to indigenous names, and the currency has an indigenous name.

One of the things that the criminals say is that, if the conquest had not occurred, the indigenous people would be naked or semi-naked in their loincloths. What these criminals do not understand is that being naked and semi-nude are not something bad in some indigenous ethnic groups and that it would not affect them in any way to walk like this.

People who see nudity, semi-nudity and sexuality as something bad as these conservative criminals do are the most depraved people that exist, who commit sexual harassment, sexual abuse and rape the most.

Also, these criminals are often ignorant people who think that mestizo means the same as indigenous, that only mestizos exist in the present and that they make the indigenous people invisible by making them believe that there are no indigenous people in the present.

The indigenous people of the Guaraní Kaiowá ethnic group have received threats in audio messages where they threaten to kidnap Guaraní Kaiowa children. On March 10, an indigenous girl from the Guaraní Kaiowá ethnic group is missing.

The Bolsonaro government, in addition to causing the murder of hundreds of indigenous children of the Yanomami ethnic group due to malnutrition and mercury poisoning by allowing the entry of illegal miners into Yanomami territory, also caused Yanomami girls to suffer sexual abuse and rape, and according to Many of these girls have been reported to be pregnant, this is another proof of how miscegenation is a form of extermination of indigenous ethnic groups.

The brown skin of indigenous people is more resistant to the sun, is less irritated and suffers less from diseases such as skin cancer. In addition, their hydrated skin wrinkles less, which is why indigenous people, even if they are adults, look younger.

The slightly slanted or almond-shaped eyes of many indigenous people inspire reflection and wisdom in me. And I love her black hair color. Therefore, for me, aesthetically, indigenous people look better.

Unfortunately, as part of the colonialist concept of beauty: television, the entertainment industry such as cinema, the modeling industry and commercial product advertisements have been responsible for maintaining this colonialist concept of beauty.

Indigenous people are also better than whites and mestizos in their values, because they have the value of humility, understanding humility as not feeling inferior and not feeling superior, never assuming that you know everything, being willing to learn and feeling one with the earth or with nature.

Indigenous people have the value of balance by not exploiting nature, avoiding excesses and taking only what is necessary to live, and they have the value of reciprocity.

Indigenous people are more interested in taking care of the environment, while most whites and most mestizos only care about money, regardless of whether to have money they have to pollute and destroy the environment.

Obviously indigenous ethnic groups are not perfect and indigenous people are not perfect because they are human, and they also have defects and make mistakes.

But, the idea that indigenous ethnic groups remain stagnant, that they always remain the same and never change, is a lie of the colonialist system.

People from indigenous ethnic groups also reflect and indigenous ethnic groups do change over time, without needing whites and mestizos to intervene in their cultures.

As evidence of the relationship of the political Right, libertarians and neoliberals with neo-Nazism:

Neo-Nazism is totally related to Viking paganism, in fact, the Nazis used Viking runes as part of their symbolism.

Viking Pagans, Viking Neopagans, and Right-Wing Satanists such as the ONA, Anton Lavey's Church of Satan, and Michael Aquino's Temple of Set believe that Social Darwinism is what opposes Christianity.

Social Darwinism is what Christianity has actually promoted in the inquisition and colonization, and how those teachings of Jesus Christ to forgive everything, turn the other cheek and love your enemies are teachings that favor the criminals who promote Darwinism Social.

VOX is also related to Jewish Zionism because it supports the State of Israel just like Jair Bolsonaro and his children.

The belief that every opinion is respectable is a crime. Opinions that generate hatred, massacre, discrimination, contempt and genocide against indigenous ethnic groups are not respectable.

To tolerate those who make these opinions is to be complicit and equally guilty of the hatred, the massacre, the discrimination, the contempt and the genocide that indigenous ethnic groups suffer in the present.

Tolerance is a crime when evil is tolerated.

All those who are subscribed and watch content from Youtubers and Influencers who support the Right, Libertarians or Neoliberals such as DrossRotzank, Una Alienada, Un Tío Blanco Hetero or Libertad Y Lo Que Surja, or are subscribed and watch content from Youtubers and Influencers who, although they say they do not support the Right, do defend and justify these political parties such as Dalas Review and its other channel Dalas SIN FILTROS, are complicit and guilty of the hatred, massacre, discrimination, contempt and genocide that indigenous ethnic groups suffer today.

Another proof of the relationship of the Right-wing political party called VOX of Spain with neo-Nazism is that in the years from 1933 to 1945, the NAZI propaganda service in Germany published a magazine in several languages with the name VOX.

In all countries of the world: religious fanatics of Christian religions and neo-Nazis should be prohibited from founding political parties, and these fascists who cause hatred towards indigenous people and the murder of indigenous people in the present should be sentenced to the death penalty.

The Catholic Church has always celebrated the murder of indigenous people by the colonizers. Proof of this is the fictional saint called Santigo Mataindios, which is based on Santiago Matamoros, who was invoked by the colonizers to murder indigenous people and to dominate and subjugate the surviving indigenous people.

Most statues of Catholic virgins, Catholic saints, angels and Jesus Christ in churches are depicted as white people.

Also, the inquisitors who defamed, tortured and murdered people in the inquisition were canonized as saints by the Catholic Church, and statues and universities were even created in their honor and named after these murderers.

An example of this was the murderer of the Cathars called Simón de Montfort, the inquisitor of Arnaldo Amalric and Pope Innocent III who created the inquisition with the aim of exterminating the Cathars.

Domingo de Guzmán was also a murderous inquisitor who was canonized as Saint Domingo de Guzmán by the Catholic church. Genetic evil can be seen in the statues created to honor murderers like Simón de Montfort due to their appearance, gestures and looks.

These Christian monsters cut off the ears, lips and noses of the Cathars, And this was exactly what the European colonizers also did to a part of the indigenous people when they arrived on this continent to frighten, dominate and subjugate the other indigenous people.

The truth is that there must have been a more advanced culture in weapons, that knew everything that could happen if these Christian monsters were alive and that he would also have developed iron armor so that he would completely exterminate these Christian monsters, his genetics would not spread throughout the world and the atrocities against indigenous people that occur in the present would not happen.

Founding presidents of the United States who were Freemasons and Christians such as George Washington and Andrew Jackson are considered heroes.

George Washington's image appears on one-dollar bills and Andrew Jackson's image appears on twenty-dollar bills. Both George Washington and Andrew Jackson caused the extermination of native people to steal their land and found the United States.

George Washington and Andrew Jackson were Freemasons. A copy of any of the Abrahamic religions (Jewish, Christian or Islamic) is always placed on the altars of the Masonic lodges, be it the Torah, the Bible or the Koran.

Catholic popes who have covered up priests who sexually abuse or rape minors have also been canonized as saints. For example, Pope John Paul II was friends with the pedophile Marcial Maciel (founder of The Legionaries of Christ).

John Paul II knew that Marcial Maciel sexually abused minors and covered up for Marcial Maciel, and John Paul II was canonized as a saint.

The majority of believers are accomplices of Catholic priests and evangelical pastors who sexually abuse minors because when Catholic priests and evangelical pastors commit these abuses, the majority justify them by saying they are simple mistakes, they want people to remain silent about the issue, They want these abuses to be covered up and justice not to be done against these pedophiles.

For this reason, the majority of humanity is also complicit and guilty of the sexual abuses against minors that religious leaders of Christian religions have committed to justify them and to belong to those religions that cover up these pedophiles. Rape and sexual abuse of minors are crimes and are not simple mistakes.

When the disastrous majority justifies Catholic priests and evangelical pastors who sexually abuse minors with the fact that they are simple errors because they are religious leaders, they remain silent about this, they want these pedophiles to go unpunished and they want this to be covered up, they are totally guilty and complicit in these sexual abuses of minors.

The Bible was created by the Catholic Church at the Council of Nicaea following the orders of the Roman Emperor Constantine I.

That is why the other Christian religions of the present such as Pentecostals, Anglicans, Evangelicals or Protestants, Mormons, the Orthodox Church, Adventists, Jehovah's Witnesses and others are daughters of the Catholic religion because they are based on the Bible created by the Catholics.

Even if they are just statues, in the statues of Constantine, through the look, gestures and facial expressions of this Roman emperor, you can see his genetic evil.

The only Christian religions that were not children of the Catholic religion were those that existed before the Roman Empire converted to Catholicism, such as the Ebionites and the Gnostic religions that were not based on the Bible.

And also at the beginning of the inquisition, there were the Cathars who were a Christian religion that was not based on the Bible. But in my opinion, all Christian religions are racist, in fact, there was a Nazi officer named Otto Rahn who was attracted to Catharism and considered himself a Cathar.

Hitler and the Nazis were New Age because they mixed Catholic Christian beliefs with Hindu beliefs such as the belief in karma, with Viking paganism, with the belief in extraterrestrials that visit us and with lost continents like Atlantis.

The belief that UFOs are of extraterrestrial origin is a belief used by the elites in power, by governments and by the media such as television to distract and so that people do not care about the issues that are important.

It is true that there are millions of stars with planets revolving around them and millions of galaxies, and that it is very likely that life exists on other planets, but that does not mean that they have visited the earth and due to the distances it is impossible.

Furthermore, whether life exists on other planets or not is not an issue that should matter to us, the only thing that should matter to us is taking care of life on this planet and this planet on which we live, not others.

There is no evidence that UFOs are of extraterrestrial origin, but, even if the UFOs were extraterrestrial ships, that should not matter in the slightest, the only thing that should matter is life on this planet.

When it is mentioned that the Greek god Helios, the Greek god Apollo, the Celtic god Belenos and the Slavic god Dazhbog traveled through the sky in a chariot of fire, and that the Egyptian god Ra traveled through the sky in a boat, as all those gods were gods of the sun, the chariot of fire of those gods and the boat of Ra were metaphors to refer to the apparent movement of the sun through the sky, they were never extraterrestrial ships.

Just as Nazism was New Age and neo-Nazism is New Age; Freemasonry is also New Age because it mixes Judeo-Christian beliefs with Greek paganism and Egyptian paganism, which is completely absurd, because Jews and Christians defame Egyptians in the Bible, and because the biblical god condemns worship to other gods and practicing magic with death.

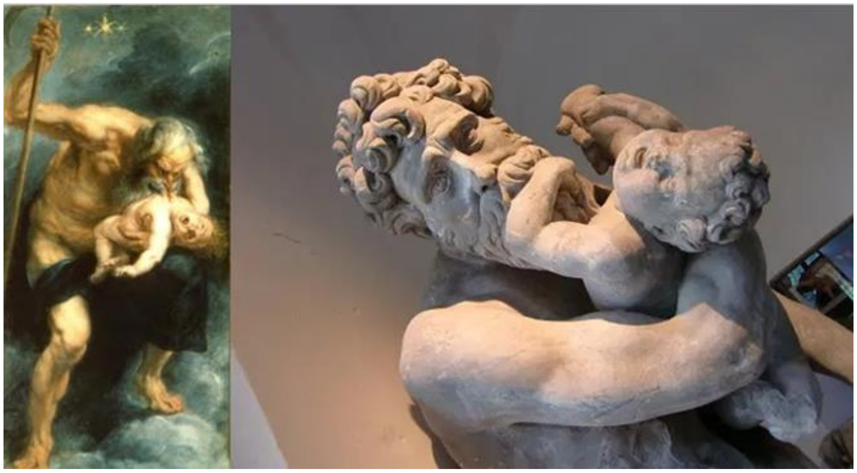
Both Hitler and the Nazis had the stupid belief that the Aryans (white, with light blue eyes and blonde hair) were a superior race because according to these criminals they descended from gods of Atlantis and that the Atlanteans saw Earth from another planet.

Another stupid belief of Hitler and the Nazis that makes them New Age is that they believed in the hollow earth, according to these crazy people there was a city under the earth called Agartha where the surviving Atlanteans lived who were Aryans (white, blue eyes and blonde hair).

Everything is connected: Jewish Zionism, Neo-Nazism, Christianity, Right-wing Satanism, Freemasonry, Viking paganism and New Age. They are sides of the same coin who pretend to be enemies in front of people, but they are the same and it is all part of the same plan to establish white supremacy in the world.

I believe that the murders committed by Christianity in the inquisition and colonization are sacrifices. And I believe that the murders of indigenous people in the present also caused by Christianity are sacrifices.

Cronus to the Greeks (Saturn to the Romans) was a god of time who devoured his own children when they were born to be the only god. And the god of the Bible, by prohibiting the worship of other gods and condemning with death those who worship other gods, is a god who metaphorically devours other gods to be the only god.



Images recovered from the Internet

Zeus for the Greeks (Jupiter for the Romans) defeated Cronus (Saturn), but by defeating Cronus and Zeus becoming the new god of the sky, Zeus became just as tyrannical, sexist and cruel as Cronus. That is to say that the essence of Zeus is the same essence of Cronus, and therefore, metaphorically they are the same being.

In Spanish it is written Dios, and in Latin and Portuguese it is written Deus. If we change the letter D at the beginning for the letter Z, the word remains: Zeus.

In the statues of Catholic virgins and Catholic saints they wear the same dresses with which Greek goddesses such as Hera and Hestia are represented in their statues.

The paintings and statues of cherubs in Catholic churches that are represented as white children with wings are based on the Greek god Eros (Cupid for the Romans). It is believed that the Greeks were white.

For Hispanics: if you criticize miscegenation they say you are a Nazi, being a mestizo.

It is also stupid because criticism of miscegenation has never caused the extermination of mestizos and has never caused concentration camps for mestizos. On the other hand, indigenous people have suffered extermination policies and been confined in concentration camps.

But, anyone enters the profiles of a Hispanicist, whether on Facebook, Twitter or Instagram, and realizes that all Libertarians or Neoliberals and Rightists, who all publish in favor of Donald Trump, in favor of Jair Bolsonaro, in favor from VOX and Javier Milei, all defend Christianity and the Bible, and many of them also defend bullfighting, cockfighting and hunting for pleasure because they are a European heritage.

Many of these Hispanists when entering their accounts on social networks are believers in conspiracy theories and many of these clowns deny hating the indigenous people because they defend miscegenation, but they show hatred towards the indigenous people when they consider them from the stone age, backward, uncivilized or savage, they idealize Europeans and Europe, and for them only Europeans and Europe provided contributions to the world.

When they mention indigenous people it is only to highlight their bad parts, they never mention the good parts of indigenous cultures. Also, the concept that these Hispanists have of civilization and progress is to place technology and money above everything, above life and above nature.

If they said that money is important and technology is important, but that life is more important, that environmental protection is more important and respect for indigenous people is more important, and that, although money and technology Even if they are important, they cannot be placed above life, the environment and the indigenous people, it would be different.

But, that is not what they say, what they say is that technology and money have to be the most important thing above life, above the indigenous people and above the environment. They place money and technology above everything and everyone, and they call that civilization, progress and development.

And one thing also happens with those conservatives who defend colonization: they often attack what is politically correct on the Left and progressivism, but when it suits them they are politically correct, like when they say that miscegenation is equality and inclusion.

When even that is not true, many mestizos hate the indigenous, many mestizos prefer what is European, and many mestizos replace and displace the indigenous.

I am against political correctness because nature is not politically correct, and with this I am not defending Social Darwinism and I am not using the naturalistic fallacy, it is simply that the reality of nature and the universe is not politically correct, Ecosystems are meant to be inhabited by different species and not all species can live in the same ecosystems.

For this reason, I oppose this ideology of equality because it annuls and makes invisible the indigenous by making us believe that we are all equal, when it is not true, nature does not work that way, and by making us believe that we are all equal then they say that indigenous people should not have species rights to justify continuing to suffer invasion of territories, genocides, massacres and replacement.

Because according to the logic of the ideology of equality, if we are all equal, it does not make sense for indigenous people to have different rights, In addition, the differences in way of being, way of thinking and vision of the world are not recognized if this ideology of equality is followed.

For this reason, the stupid Hispanists compare the criticism of mestizaje with Nazism, and I ask them where there has been an extermination of mestizos and concentration camps for mestizos, and they don't know what to answer, they only answer that you are a Nazi.

It is also that they reduce the indigenous only to the physical, for them indigenous are only physical features, in the concept of indigenous they do not include way of being, they do not include way of thinking and they do not include world vision.

I reject the ideology of equality because the concept of equality is something Christian and something promoted by Freemasonry, the same Freemasonry to which Freemasons who caused and cause hatred, extermination and massacres of indigenous people belonged and belong.

The concept of equality denies nature, it denies genetic and physical differences, and following the logic of equality, someone who harms innocent people would have the same right to life as an innocent person

Following the logic of equality: minors should not have special rights, and those who suffer from disabilities should not have special rights. This is how the equality that Christians, Hispanists and Freemasons talk about becomes a tyranny.

By denying differences, the ideology of equality gives space for injustices and atrocities to be committed since it denies differences that are part of nature.

Nature is not equality, nature is diversity, ecosystems do not function under the logic of equality because if they function under that logic all species could live in the same ecosystem and that is not the case.

If nature operates under equality, different species from different ecosystems could live together without problems and that is not the case, It always happens that when species from an ecosystem invade ecosystems to which they do not belong, there is a replacement and displacement of the species that suffered the invasion of their ecosystem by the invasive species.

The reality is that nature does not work the way conservatives, politically correct Christians, Freemasons, and New Ageists would like it to. We must accept that in nature there are irreconcilable differences, and that nature is not all love and peace. Nature is not perfect and will never be perfect. Perfection does not exist.

Perfection is just a Judeo-Christian myth, in fact, it is a word that should not exist.

Another thing that Hispanists always use is to mention traitorous indigenous people who collaborated with the colonizers, but those traitorous indigenous people were only 1% of the indigenous people and there are still traitorous indigenous people in the present, and they are only the minority of the indigenous people.

It is logical that, if we exist 1% of mestizos, creoles, Europeans, blacks who are not indigenous, mulattoes, zambos and Asians who are not indigenous that we make a difference to the majority.

Logically, there will also be these exceptions within the indigenous people, there will also be 1% of indigenous people who are traitors and who hunt for pleasure or who are dedicated to livestock raising bulls and cows brought by the European colonizers.

Exceptions exist in everything and using exceptions as an argument makes no sense. Mutations are also part of nature, and mutations and exceptions are the same.

Also when Hispanists mention indigenous ethnic groups that allied themselves with the colonizers to defeat the Incas and Aztecs, they never mention that those ethnic groups were deceived and they never mention that after they helped the colonizers defeat the Incas and Aztecs, those other indigenous ethnic groups They also suffered repudiation, hatred and contempt from the colonizers, the colonizers only used them as objects for their purposes.

Those Hispanists say that Isabel la Católica and that the laws of Burgos defended the indigenous people, what they do not say is that those laws said that the indigenous people would only have rights if they converted to Christianity and submitted to the will of the European royalty, and that the laws of Burgos allowed that in the encomienda and the mitas the indigenous people would be punished with lashes if they showed disobedience.

They say that mestizaje was implemented because they did not hate the indigenous people, which is absurd because the mestizos were always taught to hate the indigenous people, to have the same way of being as the Europeans and to hate the way of being of the indigenous people, to have the same way of thinking as the Europeans and to hate the way of thinking of the indigenous people, to have the same vision of the world as the Europeans and to hate the vision of the world of the indigenous people, and to have a concept of beauty that revolves around white and European.

Hispanists say that indigenism is victimhood, they are so ignorant that they do not know the meaning of victimization and victimization is when someone pretends to be a victim without being one, in the case of indigenous people they continue to be victims to the present.

But, what the Hispanists do with Spain, with the Spanish and with the Europeans is victimization because Spaniards, Spain and Europeans in general have never suffered invasions, have never suffered extermination policies and have never suffered replacement by other ethnicities.

And finally, these Hispanists are so stupid that they believe that attacking colonization is attacking only the Spanish and Spain.

When attacking colonization is attacking all colonization equally, both the colonization of the countries that currently speak Spanish and the colonization of the countries that are currently known as Brazil, the United States and Canada, and it is also attacking the colonization of Siberia by the Slavs, and the colonization of Asia, Australia and Africa alike.

But, they believe that all of us who attack colonization focus only on the colonization carried out by the Spanish colonizers, and they believe that we only attack the colonization that occurred in the past, when we also attack the colonization that occurred in the present.

Also, how they see that the indigenous people speak of resistance to defend their territories, their rights, their beliefs and customs.

They also talk about Hispanic resistance, which is ridiculous because Hispanics have never suffered invasion of territories, they have never suffered policies of extermination and replacement, they have never suffered prohibition of their beliefs and they have never suffered prohibition of their customs.

They say that miscegenation occurred voluntarily, and that many indigenous people and Europeans married voluntarily, It is ridiculous to talk about something voluntary in a context where there was pressure that mestizos had better treatment and greater privileges than indigenous people.

Obviously in a context where mestizos are treated better and with greater privileges than indigenous people, it cannot be said that mestizaje was voluntary, being something that occurred under the pressure that mestizos were treated better and with greater privileges.

They themselves accept that the criollos were treated better and with more privileges than the mestizos, because those Hispanists always contradict each other on something, but, although it is true that the criollos were treated better than the mestizos, it is also true that mestizos were treated better than indigenous people.

They almost always mention the Incas, the Aztecs and the Mayans, when there were thousands of different ethnic groups throughout the continent and they all suffered from colonization.

The other issue is that when they mention writers who defend colonization in books, if anyone looks up who are the authors of those books where the colonizers are placed as 100% good and the indigenous people as 100% bad, all of those authors are from the Right, Neoliberals or Libertarians and Christian religions such as Catholicism.

If these books were neutral and, for example, mentioned both the good and bad parts of the colonizers, and both the good and bad parts of the indigenous people, without justifying colonization, and simply mentioning the good and bad of both, they could be considered objective, but that is not the case, because for them the colonizers were always the best and the indigenous people were the worst.

The following text is authored by Arnulfo Oxlaj Filosofo Maya, I share it with the author's permission due to its importance:

THE SACRED MAYA WOMEN MASSACRED ON MAY 21, 1988 DESERVE A DIGNIFIED BURIAL

Among hundreds of women they selected three pregnant women.

And the head of the Christian State of Guatemala said: - Catch those wild bitches.

They stripped the sacred women naked. The murderers raped them to quench their diabolical thirst. After having raped them, they opened their bellies with daggers and a bag came out of each womb, and in each bag there were fetuses.

The murderers trampled those sacred lives with their cursed boots, while the women with tears and pain, with screams of anguish and with their bellies open wanted to pick up their babies.

As the women crouched they were decapitated, their sacred heads screaming as they bounced off the ground.

While the murderers committed these vile acts, they praised their Christian god.

Isn't the Mayan woman a woman? The white ethnic woman and man have created a requirement to determine who is a woman and who is not to satisfy their racist terrorist whims.

As a survivor, I call on all national and international women's organizations to join this voice to demand justice and give a dignified burial to these women who have been left in the clandestine cemetery.

If there is a women's or human rights organization that refuses to provide support for the clarification of these crimes against humanity committed against these Mayan women, it means that said institution has double standards.

It is not my fault that I am male and that I survived among the 116 children massacred on that same date.

And as a survivor it is my responsibility to seek justice on behalf of those women, children and babies whose voices and lives were taken from them with such cruelty and hatred.

There is no doubt that women suffer greatly from misogyny and hatred.

However, in these times a worrying level of prejudice against male survivors has also emerged in Guatemala, with some even choosing to support defamation and criminalization that is carried out against us by murderers as an excuse for not providing support to women and girls victims.

Because we cry out for justice, those responsible for this crime do not leave us alone.

We suffer terrorist attacks after terrorist attacks, and we receive threats after threats.

Isn't it enough that we were massacred once? I think there is no need to condemn and murder us again.

Put aside your prejudices and let's work together so that those responsible for this massacre against women face justice.

Let us remember that voluntary silence is the accomplice of the perpetrator.

CONCLUSION

Only by making good reviews of this book, making videos with reviews and excerpts from this book, making reviews on internet pages and on social networks, will we achieve change worldwide.

Books like the Torah, the Bible and the Koran must be replaced by this book and my other books. Only by eliminating the most powerful governments and traditional religions, and taking over their power and technology are we going to change the world, revolution is the only way out.

Imagine if these right-wing conservative people had had the same reach and power that they have now in the eras where human slavery was legal, these people had made the world believe that the progressives who wanted to abolish slavery were bad people, and based on in which they use the word progressive as if it were something bad or an offense, human slavery would never have been abolished and to this day they would be justifying it with the Bible.

If it could be done:

Carry out a revolution throughout the continent and change the constitution of each country so that only indigenous people can be presidents, senators, deputies, police and military.

Then when this is achieved, make the indigenous people have an army with weapons equal to or more advanced than those that the United States, Israel and the European Union currently have to prevent them from being invaded and colonized again.

Then once this is achieved, make the entire continent unite in a single country called Abya Yala and with a single flag.

Also, livestock farming that raises bulls, cows, sheep, goats and pigs should be prohibited throughout the continent, and soy cultivation should be prohibited throughout the continent. Neo-Nazism and Zionism alike must be condemned with the death penalty, and the apology for cowboys and colonizers must also be condemned with the death penalty.

It would be excellent if this were achieved: bringing indigenous ethnic groups from Asia and indigenous ethnic groups from Africa to this continent to live together with the ethnic groups of Abya Yala, and also bringing indigenous ethnic groups from Siberia to this continent.

Then the majority of Europeans, the majority of Creoles and the majority of mestizos who do not care about the lives of the indigenous people and are indifferent to everything that the indigenous people suffer, let them all go to live together in Europe and be prohibited from entrance to this continent.

That the zambos, mulattoes and blacks who are not indigenous, who do not care about the lives of the indigenous people and are indifferent to the life of the indigenous people, live in Africa and are prohibited from entering this continent.

And that Asians who are not indigenous, who do not care about the lives of indigenous people and are indifferent to the lives of indigenous people, live in Asia and are prohibited from entering this continent.

And that in Abya Yala: only the indigenous people of this continent live, the indigenous people rescued from Asia, the indigenous people rescued from Siberia, the indigenous people rescued from Africa, the few European immigrants who do care about the indigenous people, the few Creoles who that they do care about the indigenous people, the few mestizos who do care about the indigenous people, the few blacks, mulattos and zambos who do care about the indigenous people, and the few Asians who do care about the indigenous people.

Therefore, the ideal is for this continent to belong only to indigenous people, but the reason why there is an army made up of indigenous people throughout the continent, with weapons equal to or more advanced than that of the United States, Russia, Israel and the Union European Union, surveillance satellites 24 hours a day, every day, and anti-missile shields like Israel has, it is because obviously if this is not available, at some point the governments of the other three continents are going to repeat the colonization and invade again.

When I say that the continent belongs only to indigenous people, I do not mean that only indigenous people live, what I mean is that only indigenous people govern the continent, and that only 1% of us live, although we are not indigenous, we do care about indigenous people.

Therefore, the ideal is to destroy those cities full of garbage, air pollution, water pollution, garbage and noise. And that these cities be replaced by indigenous villages integrated into the environment and surrounded by other nature, but that there also be bases throughout the continent for that indigenous army that works 24 hours a day to avoid invasions and avoid colonization again.

Although the ideal would be that the first step: be to destroy the United States government and its organizations such as the CIA, USAID, OAS and FBI, destroy Israel, destroy the European Union, destroy the Vatican, and turn into ashes all the Masonic lodges, all the Rosicrucian lodges, all the headquarters of the New Age sects and all the churches of Christian religions.

Then continue with the other steps mentioned above.

Also contrary to the majority, I am not against the death penalty, I support the death penalty for criminals like the majority. For me: the death penalty is human sacrifice for those who deserve it, and I support this type of human sacrifice for revenge.

Human nature is composed of a life impulse and a death impulse, In the majority, the life impulse is poorly channeled into defending criminals in power and in reproducing genetics predisposed to evil, and the death impulse is channeled against the innocent, against the most vulnerable and against the weakest.

Therefore, if a revolution could be made, the life impulses and the death impulses must be modified so that they work contrary to the majority.

But, Judeo-Christian hypocrisy and double standards: it opposes the death penalty for those who deserve it and opposes human sacrifices for those who deserve it, while promoting the massacres of the innocent, promoting the extermination of the most vulnerable and They promote the genocide of the weakest.

But, Judeo-Christian hypocrisy and double standards: it defends tyrants and those who harm the most vulnerable, harm the innocent and harm the weakest with those teachings of loving one's enemies, turning the other cheek and forgiving everything, while they promote hatred, the massacre and extermination of the weakest, the most vulnerable and the innocent, and while they have caused unforgivable crimes in wars that they call Holy, such as the crusades and Israel's war against the Palestinians, in the inquisition, and in colonization both in the past and in the present.

For me: Right-wing, Neoliberal and conservative ideologies, and the ideologies of political correctness and pacifism are sides of the same coin.

Before I knew everything I know now: for me it was revenge personified by a Greek goddess and an Egyptian goddess.

But, after putting together all the missing pieces to know everything I know now, and understanding how Greeks and Egyptians also have a relationship with everything that I am against. Now it's just revenge, without Greeks and without Egyptians.

If the revolution that I want could be made, We would have to make all those who are not indigenous on this continent, through a trap, answer certain questions where the majority recognize that they do not care about the indigenous people in order to know who is part of the majority that must be eliminated or expelled from this continent.

And these questions that would be in the trap of the survey of the entire population of the continent without them knowing that it is a trap to identify who they are as the majority would be:

1- Do you consider that the life of indigenous people has value and should be defended?

2- Have you ever defended the indigenous people?

3- What are your concepts of savage, ignorant and primitive?

4- What are your concepts of development, progress and civilization?

5- What do you think of livestock farming that raises bulls, cows, sheep, goats and pigs for meat, milk and dairy products?

And ask this question without mentioning that these animals were brought to this continent by Europeans.

6- What do you think of soybean cultivation?

7- Do you consider indigenous people as inferior, equal or superior, and why?

8- What are the differences between indigenous and non-indigenous?

9- What is the most important thing?

10- What do you think of cowboys and what do you think of colonization?

11- What is your ideal of beauty?

12- What do you think of the Christian religions?

13- What do you think of the New Age?

14- What do you think of Freemasonry?

15- Do you consider that money is more important than life and nature or do you consider that life and nature are more important than money?

16- Who are those who suffer discrimination?

17- Who suffered damage from the whites?

18- Do you consider that whoever harms the weakest, whoever harms the most vulnerable and who harms the innocent is strong, brave and powerful or do you consider him a coward and trash?

19- Have only white people harmed the indigenous people?

20- What do you think of people who claim that the injustices that indigenous people suffered in the past and the inquisition are black legends?
